<p>Complaint #2 November 2019</p>	<p>The office of the Auditor General received a complaint in November 2019. The complainant wanted raised allegations with regards to the Lancaster restoration concerning \$750,000 or more of missing parts and annual annual operating costs of up to \$50,000 per year for over 20 years.</p> <p>The allegations were:</p> <ol style="list-style-type: none"> 1. Lancaster stabilizers were loaned to British entity per City Council and were due to be returned but do not appear to be returned (complainant alleged value in excess of \$750,000). 2. City is providing rental space to Canadian Historical Aircraft Association (CHAA) who is restoring the Lancaster on behalf of the City but restoration is not done, not sure when it will be done and may be missing parts. 3. When lease came due on CHAA space were the lease provisions followed? - i.e. other proponents tried to get space but were denied; however, the incumbent did not follow process. <p>The detailed activities undertaken are summarized in our report for this complaint contained in Appendix F.</p>	<p>We did not find evidence to corroborate the allegations.</p> <p>We did note that a current inforce stewardship/restoration agreement between the City and CHAA was not in place and should be established. We also noted that a process to systematically collect and retain evidence of compliance with contract covenants and terms should be in effect as we were not able to detect the required notice from the lessee of intent to extend the term within City records.</p> <p>Total forecasted net costs, City wide, related to the restoration and stewardship agreement are expected to be \$392,663, or less, for the period 2007 through 2026, assuming the project is completed by then.</p> <p>The detailed findings and outcomes are summarized in our report for this complaint contained in Appendix F.</p>
