

Appendix G:
Notice of Study Commencement

Notice of Study Commencement

Municipal Class Environmental Assessment Study University Avenue & Victoria Avenue

The City of Windsor has initiated a study to review the existing roadway elements along the University Avenue and Victoria Street corridors and consider opportunities within the right-of-way to provide a pleasant experience for all roadway users. The study corridors are illustrated on the key plan and include University Avenue West/East between Huron Church Road and McDougall Street and Victoria Avenue from Chatham Street West to Park Street West. The study will consider opportunities to optimize the right-of-way to achieve safe, efficient, comfortable and convenient travel for roadway users of all ages, abilities and modes within the study corridors for a 20 year study horizon.

The Study Process

The project is being planned under **Schedule C** of the Municipal Class Environmental Assessment (October 2000, as amended in 2015) process. This notice signals the commencement of the Class EA. The study will define the problem, identify alternative solutions, analyze, and evaluate each alternative based on the potential impacts to the natural, social and economic environments. In consultation with the public and external agencies, a preferred design will be determined.

A key component of this study is public and agency consultation. Two Public Information Centres (PIC) will be held to present the study progress and obtain public input. Public Information Centre details will be advertised closer to the consultation dates under a separate notice.

If you have any questions regarding the study, or would like to be included on the project mailing list, please contact one of the Project Team members below;

Jaime Garcia, P.Eng.
