Monday, January 22, 2024
10:00 o'clock a.m., Council Chambers

21. ADJOURNMENT

January 12, 2024

Subject: Regarding Item 8.6

Good Afternoon

I would like to thank the City Council and the Mayor for the opportunity to address and provide input into this driveway matter (item 8.6). I would like to start by saying I love this city, the people, and the area. But at times a simple city policy can dramatically impact its residents without understanding the full impact. One needs to walk in someone's shoes to understand the impact of a policy/bylaw of not allowing front yard driveway parking.

Please walk with me on this journey to see and feel the impact of this policy:

- (1) You have an elderly parent ill or struggling with Alzheimer's who needs constant care. Medical appointments are frequent and trying to walk their frail body into the car is difficult and painful. Finding a parking spot across one's house is extremely difficult and walking them over the curb to the car is an extremely difficult process.

Our medical care system has changed, home care is now a common practice. Our health care professionals are asked to provide services at all hours of the day, the lack of parking causes extreme frustration and delays providing adequate care.

- (2) You come home after a long stressful day just wanting to go home and relax. You pull onto your street and notice the parking area for the restaurants is empty but there is not one parking spot to be found near your home. You must park a substantial distance to get home, while customers willing to spend hundreds of dollars on a meal will not pay a few extra dollars to park in the parking lot.
- (3) Your neighbor's son or daughter completes their schooling. Due to the current housing situation, they cannot afford to purchase or rent a home. Their only option is to remain home for several more years to try to save for a down payment. Which causes more congestion in the area, most families now have two or three cars.

Due to the parking situation, residents double parking to save a spot for their family members. This is causing arguments and altercations among neighbors. Neighbors are not speaking to each other, it has become an ugly environment because of the parking situation. This is not the city or neighborhood I love.

- (4) All levels of government are now pushing for Additional Dwelling Units in residential neighborhoods. These additional units are also adding to the on-street parking issues we face in many older established neighborhoods.

(5) COVID has changed the world. There are now new working policies allowing many people to work from home. The green space in the backyard is critical to people's mental health. Parking in the back is not an option, it is not safe, and the alleys are not maintained, especially in the winter months.

But most importantly, the green areas in the backyards are critical to people's mental health. People love to garden, grow vegetables and flowers, and create a Zen area of escape. Those with young children want to use their backyards as a safe area for their children to play.

(6) Being a caring environmental person, you are interested in investigating the purchase of an electric or hybrid vehicle. The only issue is where would you install the EV charging station? If you're even lucky enough to find a parking spot in front of your home, you now must run an extension cord across the sidewalk to your car?

(7) You look around the neighborhood and you just do not understand the fairness, some of the residents have front driveways, while others are not allowed. You visit some of your friends in the newer neighborhoods of the city and everyone has a driveway. There seems to be discrimination against residents of the core area. Something just does not feel right about this situation.

(8) You read the report and you're a common-sense person. It frustrates and angers you because of the lack of care for people's needs. Also, most of the concerns outlined in the report can be easily resolved.

- a. The concern about the rainwater can be easily resolved (please do a google search). There are several appealing water absorbing solutions for driveways.
- b. The concern about tree removal can easily be resolved. Most people do not have two trees on their front property. Therefore, install the driveway on the opposite side of the tree. Where the tree is removed, the owner must plant another tree on their property or in the area.

In conclusion, I hope walking you through what the residents of the core area must deal with because of this simple policy or bylaw. The impact on the residents is substantial, not fair and discriminates against homeowners in these areas. A request for a driveway is not a want but a critical need. You would never tolerate the lack of a driveway at your area. Please be fair, be kind, be just and update your policy for those residents who require front driveways.

I truly want to thank you for your time.

Thank you

Gino Lomazzo
Resident of Ward 4
