Hello there,

I am writing this email in regards to the proposed site at 628 Goyeau Street for Consumption and treatment Services.

My husband and I are the property owners next door at 618 Goyeau Street. We agree we need to tackle the issue 100%. What we do not agree with is the sites they choose or consider. This site has been chosen without consideration of the surrounding businesses and or residential homes. As a property owner and a business owner next door and or near this proposed site will leave or shut down. With the opening of this site the businesses in the area will be affected to an extent that most will have to close or relocate. Our question to all of the city council members will you buy a home or a business where this kind of site already exists or will open in future? Or open a school close to the site ? If not then why the residents and businesses around the area are forced upon by the decision to open a site in their neighborhood?

For example, look at the El Mayor restaurant on Wyandotte. The city opened a shelter next door and they neglected to maintain the area along with monitoring the area which drove that area into a hell zone. El Mayor spent millions beautifying that area over the years building a nice restaurant and bringing life to that area and then bang it died because the shelter was neglected and loaded with garbage in front and around the site. If the city takes a decision to open the site at 628 Goyeau st and the businesses around it fail, Will the city take responsibility for the loss of businesses .

Will the city take responsibility for losing rent? Our property tax? If the tenants leave how will we pay for property tax, mortgage? This is our retirement investment, we have invested our hard earned life savings into this.
