15. **NOTICES OF MOTION**

- 15.1. Moved by Councillor Gill, seconded by Councillor \_\_\_\_\_

**Whereas** there has been an increase in residential development in the east end of the City of Windsor, particularly in Ward 7, and;

**Whereas** the grade crossings on Banwell, north of Tecumseh Road East; on Clover, north of Tecumseh Road East; and on Lauzon Road, between Spitfire Way and Tecumseh Road East are located in heavily populated residential areas, and;

**Whereas** residents regularly call with complaints regarding trains blowing whistles late at night, affecting those who live near these train crossings and ask that train whistling be stopped at night unless absolutely necessary, and;

**Whereas** the process per Transport Canada to apply to stop train whistling begins with a Citizen or group expressing interest followed by the municipality consulting with the railway company;

**THEREFORE BE IT RESOLVED** that Council **DIRECT** Administration to follow the procedures of Transport Canada and engage with the railway company to initiate the process to request train whistling stop at the following public grade crossings: Banwell, north of Tecumseh Road East; on Clover, north of Tecumseh Road East; and on Lauzon Road, between Spitfire Way and Tecumseh Road East.

16. **THIRD AND FINAL READING OF THE BY-LAWS**

By-laws 71-2022 and 86-2022 through 97-2022 (inclusive)

17. **PETITIONS**

18. **QUESTION PERIOD**

18.1. Summary of Outstanding Council Questions as at June 9, 2022 (**SCM 162/2022**)

18.2. Summary of Outstanding Council Directives as of June 13, 2022 (**SCM 161/2022**)

19. **STATEMENTS BY MEMBERS**

## The Corporation of the Town of Tecumseh

---

June 10, 2022

**Attn: City of Windsor Mayor and Council  
(Via Email)**

**RE: City of Windsor Council Report C86/2022  
Request for Provincial Assistance with Zoning for Automotive Battery Manufacturing  
Facility located at Banwell Road and EC ROW Avenue East (Ward 9)**

---

Dear Mayor Dilkens and Members of City Council,

The Town of Tecumseh acknowledges receipt of the above-noted Council Report that will be considered by City Council its June 13, 2022 Meeting. As you are aware, City staff is recommending that City Council provide support for a Minister's Zoning Order (MZO) in order to expedite the required zoning (Manufacturing District MD2.2) for the proposed EV battery manufacturing facility (Stellantis and LG Energy Solution, (LGES), as recently named NextStar Energy Inc.) to be located on approximately 93 hectares of land located southwest of the Banwell Road and E.C. ROW Avenue East intersection.

We applaud the City's efforts in attracting the NextStar Energy Inc. facility and acknowledge the significant benefits that the proposed EV battery manufacturing facility will bring to the City, the Town and the broader region. With that being said, we believe there is mutual benefit in ensuring that the proposed use is properly integrated into our respective communities and thank you for the opportunity to provide comments on this process.

In order to offer comments on this recommendation, we believe it is important to note that a secondary planning process is underway with respect to approximately 230 hectares of developable land in Tecumseh, a significant portion of which is located directly across from the subject property on the east side of Banwell Road. Significant stakeholder consultation has occurred to date (including meetings with City staff) with respect to the Town's secondary plan and in particular in relation to the City's Municipal Class EA process that was completed for this segment of Banwell Road. The draft secondary plan currently envisions a commercial node at a future intersection of Maisonneuve Avenue and Banwell Road with the balance of the secondary plan lands proposed for a range of residential uses. Further, in addition to these planned uses in the immediate vicinity of the subject property, there is existing residential development immediately across Banwell Road at Intersection Road as well as existing residential neighbourhoods farther to the east.

In consideration of the foregoing context, we offer the following administrative comments for consideration by City Council and the Province during the MZO process:

1. In light of the existing and proposed residential uses on the east side of Banwell Road within the Town, it is requested that the zoning establish an appropriate setback for the industrial component of the proposal in accordance with the MECC D-6 Provincial Guidelines, which address setbacks between industrial uses and sensitive land uses. We believe this setback could be accommodated through the introduction of certain ancillary uses, such as a parking lot and/or associated office space, adjacent to Banwell Road, with the more intensive industrial buildings being situated farther to the west on the subject property. We note from the Council Report that the two large main industrial buildings are to be located "in the centre of the site", however no further details have been provided with respect to specific setbacks from lot lines. Given the MD2.2 zone only establishes a 6-metre lot line setback, we believe there is an

opportunity to apply a greater setback along the easterly lot line, with such setback being guided by the application of the D-6 Provincial Guideline. This will assist in ensuring compatibility between the industrial uses on the subject property and the sensitive land uses to the east;

2. In the absence of substantive details and subject to incorporation of an appropriate setback for the industrial use as discussed above, we would like to request that appropriate consideration be given to the incorporation of visual buffering features (i.e. combination of trees/landscaping/berming) combined with ancillary office buildings be situated along Banwell Road through the site plan control process as a further means to addressing compatibility issues in relation to the sensitive uses on the east side of Banwell Road. We note that the City very effectively implemented these types of features for the Ford Engine Plant on the west side of Lauzon Parkway;
3. The Staff Planning Report noted that truck traffic would primarily access the site via Twin Oaks Drive to the west of the site while employees would access the site from Banwell Road. We support this transportation strategy. It also indicated that a Transportation Impact Assessment is being completed for the proposed development. The Town requests the opportunity to review the TIA when completed. We are particularly interested in the scope of the proposed traffic improvements – both interim and final – as well as the proposed timing of these improvements. The Town worked closely with the City during the completion of its Municipal Class EA process for Banwell Road, which ultimately identified preferred future road intersection locations. The Town has a shared interest with the City to see that the traffic generated along this corridor is accommodated to ensure efficient mobility of all users.

The Town looks forward to working with the City to achieve proper coordination and integration of land use along our mutual border for the long-term benefit of both communities. We are available to discuss our comments with the City and the Province throughout the MZO and local planning processes.

Sincerely,

Brian Hillman, MA, MCIP, RPP  
Director Development Services
