all current regulations. Mr. Djordevic provides some background as to his intentions with the unit as well as, some details related to the length of the anticipated construction are provided.

### **Frank Butler, area resident**

Frank Butler, area resident appears before the Development and Heritage Standing Committee and expresses concern regarding the recommendation in the administrative report “463 Askin Avenue – Heritage Permit Request (Ward 2)” and requests deferral of the proposed application to allow for the Heritage Conservation District Heritage Study to be conducted in the Askin area. Mr. Butler indicates he didn’t receive notification related to the proposed application until Wednesday and wasn’t able to meet with surrounding neighbours to formulate a response. Mr. Butler provides information related to the street and the historical significance of the homes on that street including his own. Mr. Butler concludes by providing details related to several concerns since the increase of rental units in the area.

### **Helen Martin, area resident**

Helen Martin, area resident appears via video conference before the Development and Heritage Standing Committee and expresses concern regarding the recommendation in the administrative report “463 Askin Avenue- Heritage Permit Request (Ward 2)” and inquires about a committee that was supposed to be created to address issues such as these as a result of a previous decision of Council related to a request for an addition at this site which was denied by Council at the time. Ms. Martin requests that this issue be deferred until such time as the committee and its function can be determined. Ms. Martin also refers to the University of Windsor Master Plan which is forthcoming and hopes that they will be consulted related to this as well. Ms. Martin cites concerns related to the existing infrastructure system and whether it can tolerate more units in the vicinity as well as the notification timelines related to this application.

Councillor Kieran McKenzie inquires as to the Heritage aspects of the report, and not making a decision about the zoning/planning the ADU complies and that the applicant intends to build the unit consistent with the heritage features and whether the delegates would be satisfied with the applicant’s assurances. Ms. Martin indicates that the licensing aspect is a concern for her as the program is relatively new. Mr. Butler indicates that the diagram doesn’t provide the information related to what type of heritage aspects will be in place and is concerned that allowing the project to go forward without a complete Heritage Study of the area would be concerning. Mr. Djordevic indicates that he is a landlord that will take care and renderings of the completed project were provided when applying and provides details of the plans and drawings.

Councillor Kieran McKenzie inquires about the status of the Heritage Conservation District report for the Askin area. Kristina Tang, Heritage Planner appears before the Development and Heritage Standing Committee regarding the administrative report “463 Askin Avenue – Heritage Permit Request (Ward 2)” and indicates that at the time of the previous application, Council provided direction related to funding and priority to the Walkerville Heritage Conservation District Study (HCD).

Councillor Kieran McKenzie indicates that concerns remain related to the preservation of heritage features and whether it is the intention of administration to work closely with the proponent to ensure central heritage features would be consistent for the proposed project and how the process will move forward. Ms. Tang indicates that the proposal was evaluated, based on merit with Heritage content in mind and it does meet heritage standards, and administration is in agreement with the recommendations presented in the report.

Councillor Kieran McKenzie inquires as to the steps that administration undertakes from what is being proposed to what is implemented. Thom Hunt, City Planner, appears before the Development and Heritage Standing Committee regarding the administrative report "463 Askin Avenue – Heritage Permit Request (Ward 2)" and indicates that the plans will be submitted to the Building Department and the parameters that are met reflect the request. Rob Vani, Manager of Inspections/Deputy Chief Building Official appears before the Development and Heritage Standing Committee regarding the administrative report "463 Askin Avenue – Heritage Permit Request (Ward 2)" and indicates when the permit application comes in they won't release it until the heritage permit comes in satisfactory to the planning department.

Councillor Angelo Marignani inquires as to the sewer capacity in the area and whether this development will have a negative impact on the area. Administration indicates that the addition of one unit will have a minimal effect.

Councillor Fred Francis inquires about the HCD plan for the area. Ms. Tang explains the status of the HCD for the Askin area including that the Walkerville HCD was approved and would be a priority with other studies forthcoming at the direction of Council.

Member Tape inquires about the layout of the proposed structure and the use of siding. Ms. Tang indicates that they met with the proponent and it was determined that the layout of the building is compatible to the heritage context, and is not overly visible due to the lot depth and set back from the street. Ms. Tang adds that administration finds it acceptable and the Heritage integrity of the property is in line with the proposal.

### Avenue - NE Corner Florence & Beverly Glen - Ward 7

Jim Abbs (author) – Planner III – presents item.

Karl Tanner, Dillon Consulting Limited- available for questions

Councillor McKenzie asks Administration who would be responsible for maintaining the green space. Mr. Abbs answers that it is yet to be determined and that the lands will be identified as Infrastructure or Parkland. In any case, the City of Windsor will be responsible for maintaining the proposed greenway.

Councillor McKenzie asks Mr. Tanner if there was any consideration given to have another laneway (north/south) that can connect people to the waterfront. Mr. Tanner answers that they did look at a connection but it was since removed. Mr. Tanner adds that Jerome St. connects to Eleanor which could connect people to the waterfront.
