11. ADMINISTRATIVE ITEMS

11.1. Closure of north/south alley between Clairview Avenue and 8445 Riverside Drive East, and east/west alley between Dieppe Street and north/south alley, Ward 6, SAA-6844

Jack Tobin, area resident

Jack Tobin, area resident appears before the Development & Heritage Standing Committee regarding the administrative report “Closure of north/south alley between Clairview Avenue and 8445 Riverside Drive East, and east/west alley between Dieppe Street and north/south alley, Ward 6, SAA-6844” and provides details regarding the reason for the application which is a citation for the asphalt on the easement put down by the previous owner. Mr. Tobin concludes by suggesting that the \$2000 application fee to purchase the easement is unacceptable.

Minutes

Development & Heritage Standing Committee Monday, September 11, 2023

Page 12 of 20

Councillor Mark McKenzie indicates that he has asked Administration in the past to come back with a response to eliminate the fees associated with the application in order to help streamline and speed up the process of closing the alleys throughout the city.

Dan Karon, area resident

Dan Karon, area resident appears before the Development & Heritage Standing Committee via video Conference regarding the administrative report “Closure of north/south alley between Clairview Avenue and 8445 Riverside Drive East, and east/west alley between Dieppe Street and north/south alley, Ward 6, SAA-6844” and expresses concern that the alley closure will impede access to the rear hedge of his property for maintenance and he is not interested in purchasing the easement.

Councillor Angelo Marignani asks Mr. Tobin about his comments regarding applying for the alley closure and if he is in support of the closure. Mr. Tobin responds that he was aware that there was an alley and assumed that it was paved by the City as it was existing. He was informed that rather than paying to remove the asphalt, he could purchase the easement and have the additional property.

Councillor Angelo Marignani inquires if there is any concern with the recommendation for the alley closure as requested by the resident. Brian Nagata, Planner II-Development Review appears before the Development & Heritage Standing Committee regarding the administrative report “Closure of north/south alley between Clairview Avenue and 8445 Riverside Drive East, and east/west alley between Dieppe Street and north/south alley, Ward 6, SAA-6844” and provides details regarding the recommendation and the addition of a condition as part of the recommendation that the owner and future owners be able to maintain the hedge row at the rear of the property. 7.3. Rezoning – Meo & Associates Inc. – 1646 Alexis Road – Z-043/22 ZNG/6940 - Ward 5

Justina Nwaesei, Planner - presents the application and makes note that she is not the author of the report.

Jackie Lassaline, Agent - presents application.

Ralph Meo, Developer - is available for questions.

Richard Gauvin, area resident – is not in support of the development and has concerns with the parking in the area as it is already an issue because of the soccer fields, new fire hall and new school. Mr. Gauvin mentions that people are already parking on the boulevards and sidewalks. Mr. Gauvin also states that over 300 invitations were sent out for the open house and he never received one.

Joe Tanguay, area resident (1596 Alexis Rd.) – is not in support of the development and has concerns with sewer capacity, flooding, traffic and parking. Mr. Tanguay has concerns with the height of the building and does not agree with shadow study.

Paul Michaud, area resident (1609 Alexis) – is not in support of the development and has concerns with the size for the neighborhood, the shadow study and privacy. Mr. Michaud is also concerned about losing the character of the area.

Alan Hodare, area resident (1595 Chandler Rd.) – is not in support of the development and has concerns with running the sewer on to Reginald St. because it is only an only 11inch sewer.

Paul Bartolo, President Windsor Soccer Club – has concerns with traffic, accessibility and noise. Mr. Bartolo believes that the potential residents moving into the development should be aware of soccer events and light pollution.

Carol Guimond, area resident – is not in support of the development and is concerned with potential of leaking oils into the soil (the nearby school used oil to heat building). Ms. Guimond has concerns with drainage, traffic, privacy, shadows and the value of homes being depreciated.

Ron Jenkins, area resident (Chandler Rd.) – has concerns with traffic and parking.

Karen Dory, area resident (1742 Chandler Rd.) – has concerns with parking and traffic and asks if there is a Traffic Study.

Councillor Mark Mackenzie asks if a Traffic Study has been done. Ms. Amicarelli responds that the development did not meet the criteria to initiate a Traffic Impact Study.

Councillor Mark Mackenzie asks if there was discussion on the placement of the buildings and asks why they were not placed on the East side. Ms. Lassaline answers that they are trying to preserve the heritage of the school. Placing the building on the east side would complicate the view of the school.

Councillor Marignani asks if the height of the building can be reduced. Mr. Meo answers that the development proposal cannot be altered.

Member Arbour asks if the parking can be changed to add more lots and why a Traffic Study cannot be done. Mr. Meo answers that additional underground parking was looked at but it raises the cost of the units and the building would have to be higher. Mr. Meo states that parking is an issue in the area because the Ford Test Track parking is not being utilized as it should be and residents are choosing to park along the streets.

Councillor Kieran Mackenzie asks Ms. Lassaline for clarification on the Shadow Study. Ms. Lassaline answers the only negative impact from the Shadow Study is during the winter season which would affect 3-4 houses.

Councillor Kieran Mackenzie asks for clarification on the sewer hookups and drainage concerns. Mr. Perissinotti answers as per the Functional Serving Study, the development will not have impact on the sewer system on Reginald St. Mr. Perissinotti also adds that the trunk sewer cannot be used because it is not abutting the property therefore, there would be no access to it. Reginald St. would be utilized for storm and sanitary. Councillor Kieran Mackenzie asks that given the scope of the development, is there sufficient capacity. Mr. Perissinotti answers that there is sufficient capacity for both sanitary and sewer.

Councillor Kieran Mackenzie asks what type of impact will the development have on the street as it is now. Ms. Amicarelli answers as per the IT manual, factors are taken in and a number is generated. The numbers for this development were 42 new trips in the morning and 60 new trips in the evening. The numbers did not warrant a TIS (which is above 100). Ms. Amicarelli adds that they look at the how the traffic would affect the surrounding intersections and based on the review, it was not expected to affect the existing transportation network.

Councillor Kieran Mackenzie asks how the heritage of the area was incorporated into the development. Ms. Lassaline answers that they wanted to design something that complements the Gordon McGregor School.

Councillor Mark Mackenzie asks to defer the application.
