Good afternoon,

We are the property owner of Windsor, ON. I oppose the closure of the north and south alley Chrysler centre and Cadillac, North of Ypres , south of Vimmy. Our reasons are as follows:

1. The entrance of this alley is the only way my tenants have access to the property from behind to park there vehicles, there is no other way for them to park.
2. It would be unjust to expect my tenants to park on the road should this closure take place as it would cause potential obstruction for emergency vehicles on the road.
3. It would be unsafe for my tenants to park on the road as it would cause a concern for snow plows and vice versa.
4. We are brining up the issue of easement, as my tenants use this alleyway as an entrance to enter the property from behind and park their vehicles. This is the sole purpose in using this alley. Hence, it is for a specific purpose.

My concerns are heavily for my tenants as this closure would cause disturbance to not only my tenants but also the neighbours. Based on my issues above, I am requesting this closure to be looked at again and focus primarily on the issues it would not only cause my my tenants but also to other civilians such as emergency response teams and city snow plows. I understand that there are rules and procedures in place however I should be given options of how my tenants can park there cars or enter the property from behind, should this closure take place.

Lastly, please advise if I can attend the meeting virtually via zoom or other platforms.

Thank you,

Ishpal Bains & Parmit Multani
