10. HERITAGE ACT MATTERS

10.1. 986 Ouellette Avenue, Masonic Temple, Community Heritage Fund & Downtown Windsor Enhancement Strategy and Community Improvement Plan Grant Extension (Ward 3)

Cameron Adamson, Windsor Masonic Temple

Cameron Adamson, Windsor Masonic Temple appears before the Development & Heritage Standing Committee regarding the administrative report entitled “986 Ouellette Avenue, Masonic Temple, Community Heritage Fund & Downtown Windsor Enhancement Strategy and Community Improvement Plan Grant Extension (Ward 3)” and thanks administration for their assistance related to their application and is available for questions.

Councillor Kieran McKenzie inquires whether the project completion is within the timeline extension requested. Mr. Adamson indicates that there was a delay due to availability of materials and weather conditions and that the completion of the project is in sight.

Councillor Angelo Marignani asks Administration if there are any concerns with the extension from a City point of view. Kristina Tang, Heritage Planner, appears before the Development & Heritage Standing Committee Meeting regarding the administrative report “986 Ouellette Avenue, Masonic Temple, Community Heritage Fund & Downtown Windsor Enhancement Strategy and Community Improvement Plan Grant Extension (Ward 3)” and indicates that there has been constant

communication with the applicant, they are confident with the progress of the restoration, that completion of the work this construction season is likely and there is little risk with the extension.

10.2. Verbal Update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 - City Wide

Kristina Tang, Heritage Planner III

Kristina Tang, Heritage Planner III appears before the Development & Heritage Standing Committee regarding a Verbal Update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 - City Wide, and provides an overview of the heritage resources, public consultation, policy analysis and inventory listing within the Walkerville area. Ms. Tang indicates there have been challenges with sourcing qualified researchers. She adds that once the Walkerville area is completed, other areas with the strongest historical and cultural value will be evaluated. Ms. Tang indicates that designation through development review and incentive program is ongoing as development applications come through and protection of properties through the demolition control by-law as well as protection of city-owned heritage resources. There will be a communication piece coming forward in Q4 to highlight the council decision and expectation.

Councillor Kieran McKenzie inquires about the number of heritage properties that are listed. Ms. Tang indicates that there are over 800 properties listed.

Councillor Kieran McKenzie inquires that if the City doesn't complete assessments on all of the listed properties, what is the risk and what resources are available to help to get through that list. Ms. Tang indicates that going through each property on the register and designating all of them is not a feasible approach. Ms. Tang adds that not every property listed meets the provincial criteria for designation. In terms of quantifying those worthy of designation, Walkerville is being prioritized, then, concentration will be on properties that provide the most value to the community and areas of

the city, where there are many heritage properties, are being protected by the demolition control by-law. Jelena Payne, Commissioner, Economic Development appears before the Development & Heritage Standing Committee Meeting regarding the Verbal Update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 - City Wide, and indicates that although we are expected to identify properties that we would like designated by the end of 2024, that process would not stop. Administration is in the process of identifying the most critical properties that we do not want to fall off that list, and administration was also directed to write to the provincial government to request an extension of the deadline date, which they did and continue to lobby and advocate for the same.

Councillor Kieran McKenzie asks Administration to identify the risks for municipal assets and whether a by-law can be enacted related to any municipal assets currently listed, be treated as a heritage asset, despite no longer being listed. Aaron Farough, Senior Legal Counsel appears before the Development & Heritage Standing Committee Meeting regarding the Verbal Update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 - City Wide and indicates that planning could be consulted to develop a by-law as a mitigation strategy to protect municipally owned listed properties, and are at liberty to treat assets however, that would be done at the direction of council.

Councillor Kieran McKenzie asks Administration in terms of private heritage listed assets, if it would make more sense to focus on those that are listed that could be affected by the timeline. Mr. Farough indicates that they have much less control over privately held lands once they fall off the list and enter the restriction period for which they cannot be relisted for a period of time.

Michael Cooke, Manager Planning Policy, Deputy City Planner, appears before the Development & Heritage Standing Committee Meeting regarding the Verbal Update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 - City Wide, and indicates that there is a risk of knowing that not every property on the list can be evaluated and determined worthy of designation within the time frame. The higher risk properties have been identified as part of the strategy that has been adopted. If properties do come off the list, they can still go through the designation process if the owner is willing.

Councillor Angelo Marignani inquires whether there are other tools that may be used to save some of these heritage properties. Ms. Tang indicates that 7 strategies within the original report were comprehensively reviewed and brought forward to determine what would be most suitable and feasible.

Councillor Angelo Marignani inquires whether there may be a possibility for an extension of the deadline. Ms. Tang indicates that there has been a request for extension made, but there has not been any positive response from the province in that regard. Heritage conservation districts are another tool we have used, such as in Walkerville.

Member William Tape inquires as to how the City can prevent people from completing poor heritage restoration or mutilating important heritage aspects and elements of the building. Ms. Tang indicates that types of alterations are allowed through the heritage permit process, but only if

the property is designated. There is no legislation for alterations of listed properties. Alterations are out of the City's control and the only way to prevent them is through designation.

Member William Tape inquires whether there is any mechanism to stave off this type of work while the City works through the process. Ms. Tang indicates that they have no way of regulating modifications unless the property is designated. At that time, a permit process must be adhered to.

Moved by: Councillor Kieran McKenzie

Seconded by: Member William Tape

Decision Number: **DHSC 594**

THAT the verbal update to Municipal Heritage Register: Strategies in response to Provincial Bill 23 provided by the Heritage Planner **BE RECEIVED**; and,

THAT the Heritage Planner **BE DIRECTED** to report back to a future Development & Heritage Standing Committee meeting on the viability of a bylaw for Council consideration aimed at protecting existing Municipal Heritage assets beyond the Province's 2024 deadline; and that should a bylaw be determined viable, **TO PROPOSE** within the response appropriate language and to report back prior to the Provincial deadline elapsing.
