Subject: Sister City Partnership Agreement between the Sovereign State of SHRIKAILASA and Windsor

Drew Dilkens Mayor of the city of Windsor Ontario, Canada

#### Re: SHRIKAILASA Nation's Request for Sister City Agreement with the city of Windsor

Dear Mayor Dilkens,

After 5,000 years of a multi-fold and untold persecution, Sovereign State of SHRIKAILASA is the unified voice for the 2 billion dispossessed and persecuted Hindus across the globe. In a world ravaged by war, pandemics, ecological destruction, hatred and division, SHRIKAILASA represents the revival of the ancient enlightened civilization-based nation, the global diaspora of the world's oldest ethnic Hindu indigenous tradition, the Adi Shaivite Minority Tradition (ASMT) which believes in the Oneness of all beings, and the highest potential of all human beings, irrespective of their race, religion, country, color, gender or background.

#### About SHRIKAILASA® (or KAILASASM)

- o SHRIKAILASA is a consortium of multiple micronations, educational institutions including Hindu universities and school (gurukul), de facto spiritual embassies, temples, temple monastery complexes, nunneries, food banks (Annamandir), animal shelters (Goshala), libraries (Jnanalaya), organic agriculture.
- SHRIKAILASA's founding principles of ahimsa (non violence), advaita (oneness) and living in harmony with nature and fellow human beings presents a bold vision for the of human potential, peaceful co-existence, organic living and alignment with nature, echoing the ideal that once thrived in the enlightened civilizations of the East.
- Global adherents of SHRIKAILASA, that follow this science spread over 100 countries and form one of the most successful communities in the world, because they practice the sciences of Living Enlightenment as revived by the Supreme Pontiff of Hinduism.

#### SHRIKAILASA® Uniting Nations

SHRIKAILASA works to unite all nations for common human values such as global peace, eradicating poverty, religious tolerance, gender equality, women empowerment, child welfare, eradicating illiteracy,

sustainable development, animal protection, establishment and support of food bank, holistic healthcare, revival of ancient heritage of Hinduism, protecting and reviving the science of enlightened birthing and pregnancy, democracy and uncorrupt elections, ethical environmentalism, protection of monks, organic and sustainable agriculture, recovery of drug abuse, sexual abuse victims, vegetarianism and climate change.

Towards this goal, SHRIKAILASA has established many organizations and initiatives around the world such as:

- o SHRIKAILASA Uniting Nations for Nonviolence and Global Peace
- SHRIKAILASA Uniting Nations for Feminine Empowerment and Gender Equality
- SHRIKAILASA Uniting Nations for Mental Health and Development
- SHRIKAILASA Uniting Nations for Nutritious Food and a Hunger Free World

Subject: 2022 International Children's Games

Hi Sandra/Will – I just wanted to let you know that the location for the International Children's Games in 2022 is Coventry, UK. As has been the practice in recent years, the two local swim clubs are sending a combined aquatics team with 8 swimmers and a male and female coach/escort. Due to the location being a sister city with Windsor, I thought maybe you would like to make the IRC aware of the event.

Now that Paul Carter has retired, the Mayor's Office has requested that Recreation—Aquatics, handles the response to the invitation on behalf of the Corporation. The registration fee for the team, as in past years, will be paid from the Mayor's Office budget. Let me know if you need any more information. Below you will find the original invitation and the link to more info on the ICG website. There are no plans to send a representative from City Administration. Michael

#### "WE ARE 1 WORLD" - Children's art exhibition with the twin city of Windsor.

"We are 1 world" is the motto of this year's International Children's Art Exhibition with the twin city of Windsor in Canada. Children between the ages of 6 and 12 were called upon to transfer the motto into paintings. Together with Windsor's twin cities Fujisawa in Japan, Gunsan in South Korea, Changchun in China, Coventry in the United Kingdom and Santillo in Mexico, Mannheim again took part in the creative challenge. The colorful result can be seen online at: https://www.youtube.com/watch?v=e1MS\_8ez-TQ. The Mannheim contribution starts at minute 16.

As Corona continues to restrict the organization of large international events, the City of Windsor, like last year, moved the exhibition into virtual space. The result is a colorful YouTube video featuring the children's paintings as well as video speeches by the mayors from the twin cities.

Fred Francis, chair of the Windsor International Relations Committee, emphasizes in his speech on the video: "Art is a universal language that allows us to communicate across borders. It helps bring people and ideas together."

In his video message, Mayor Dr. Kurz elaborates on the exhibition's motto: "We are one world. The exhibition offers us a good opportunity to think about ourselves and about the world we live in." In doing so, Kurz appealed to the young artists to respect and protect the One World and to stand up for equal rights and opportunities worldwide. His special thanks go to the organizers of the exhibition, who realized this "inspiring idea to make the thoughts of children visible".

In Mannheim, 24 children participated. Many of the paintings were created in Mannheim's after-school and childcare facilities. The Neckarstadt Kids, the Kleine Riedstraße Children's House, the after-school care center at the Rheinau School and the after-school care center at the Friedrich Ebert School took part. A big thank you goes to the supporting educators and caregivers and last but not least to the children who submitted their imaginative contributions!

#### **Cooperation with the Twin City Windsor**

Mannheim's twin city Windsor in Ontario is the southernmost city in Canada, right on the state border with the USA. The natural border is the Detroit River. The relationship between Mannheim and Windsor dates back to 1979, when a Canadian delegation visited Mannheim. On April 14, 1980, the partnership deed was already signed.

Mannheim is currently cooperating with Windsor within the framework of an EU-funded administrative exchange. International Urban and Regional Cooperation (IURC) is the world's

largest cooperation program between European and non-European cities and offers decision-makers at the municipal level the opportunity to network. The aim is to develop and implement innovative ideas for sustainable and climate-neutral urban development - basically a concern that is also reflected in the images of the children's art exhibition "We are 1 world".

#### Dear Sandra,

Thank you for realising this great project! I think that it is a very good way to bring the idea of twinning and international understanding to families who are often not reached through other activities. I am very happy that this year some childcare facilities from disadvantaged neighborhoods as well have participated and were able to inspire their children for this activity. I am already looking forward to next year.

Betreff: 2021 Virtual Children's Art Exhibition

Greetings from Windsor!

The City of Windsor is proud to present the 2021 Children's Art Exhibition. The annual exhibition showcases the art of children between the ages of 6 and 12 years of age, from Windsor and from many of our twin cities. This year's theme of "We Are One World," shows that, although we are in different parts of the world, we are tied together in many ways. The annual children's art exhibit serves to strengthen the connections between the City of Windsor and its twin cities through the inspiration and creativity of our children.

Thank you and CONGRATULATIONS to all of the participants. This would not have been possible without you.

Enjoy and please feel free to share this link. https://www.youtube.com/watch?v=e1MS 8ez-TQ

November 22, 2021

Dear Mayor Dilkens, dear colleague,

Thank you very much for the congratulations you kindly sent me as the City Mayors Foundation conferred me the World Mayor International Award.

The City Mayors Foundation reasoned in its decision that cities around the world cooperating with each other and learning from each other make a major contribution to improving social, economic and environmental conditions. I may say that we as mayors, in our role as city leaders, are well aware that this kind of international engagement is only possible in cooperation with committed partners. The city of Mannheim is very appreciative of the fact that we have such valued partners all around the world. Within this global network, the twin cities are among the longest-lasting and most stable relationships.

Thus, my gratitude goes towards you and all those international leaders and partners that make our international commitment work, that ensure successful initiatives and with whom the exchange of ideas as well and the development of concrete projects is possible.

I am convinced that international cooperation and city-to-city-learning is key to improving our knowledge and our actions and I look forward to continuing our strong and deep friendship and successful collaboration.

Glaubiger-ID DE17ZZZ00000131389 Dear collegues in the Twin Cities,

Today I contact you concerning our Youth Workcamp in the "Garden of Twin Cities". The project will take place in July 2022 and builds directly on the results of this year's gardening workshop we held online in October. Unfortunately, we will not be able to predict what the pandemic situation will be next year. But we are confident that it will be possible to have a meeting on site next summer. If participants from your city are worried about committing in February already, please reassure them. We will be looking closely at the pandemic in 2022 and will remain in contact with each other.

I am enclosing a letter from David Linse as well as the concrete information and registration form for your participants.

For the travel planning of the participants from your city, I ask for your advice. There could be two approaches. Either we book the tickets for the passengers here in Mannheim. In this case, we will ask the participants for the necessary data. Or you organize the travel booking with your participants and invoice us for the travel costs afterwards. I'd be glad if you gave me some feedback on which way you prefer.

I am looking forward to the registrations from your city. If you have any questions, please do not hesitate to contact me.

Kind regards,

# International Workcamp "Garden of Twin Cities" in Mannheim – Join in!

From **July 10 to 17, 2022** the city of Mannheim is running a Youth Workcamp with participants from its 11 twin cities and young people from Mannheim. An international group of around 30 young adults will create a part of the Mannheim "Garden of Twin Cities" in the city's greenspace Luisenpark (https://www.luisenpark.de/). We invite two people from each twin city between the ages 18 to 25 to join in.

- ? Do you come from one of our twin cities or do you work there? Mannheims's twin cities are: Berlin Charlottenburg-Wilmersdorf in Germany, Bydgoszcz in Poland, Chişinău in Moldova, Haifa in Israel, Klaipėda in Lithuania, Qingdao in China, Riesa in Germany, Swansea in the UK, Toulon in France, Windsor in Canada or Zhenjiang in China?
- ? Do you work in horticulture or are you training in that field?
- ? Are you keen to get to know other young people from various parts of the world?
- ? Can you imagine involving yourself for a week in a community venture, with less emphasis on comfort, but finding your life enriched by some fantastic shared experiences?

If this is the case, please contact the International Office in your city and apply **by February 28, 2022** for the International Workcamp in Mannheim! Please submit the completed application form to the International Office in your city. The office in question will select the participants and pass the accepted applications on to the city of Mannheim. Once you receive a confirmation from Mannheim your participation is binding.

In June 2022 the preparation team in Mannheim will invite the participants to a virtual preliminary meeting via video conference. Here you will be able to get to know the other participants and raise any questions or ideas you may have about the Workcamp.

#### What can you expect in Mannheim?

- → You will participate in creating the Garden of Twin Cities, for example by building it's central square with a pavement of different stones typical for the twin cities or by planting trees, perennial plants or roses.
- You will be invited to get to know Mannheim's horticutural training workplaces.
- You will have time for reflection and have fun with intercultural learning activities.
- → You will discuss internationally relevant future issues and sustainable urban development.
- You will share leisure activities (feel-good campfire included).
- ★ We will produce a film and photographic documentation of the workcamp so that you can share your experiences with friends and with the people in Mannheim and all the other twin cities.
- ★ Accommodation in a dormitory in Mannheim's youth hostel, full board

#### What should you bring:

- Personal protective clothing, especially shoes, in line with international standard S 3
- Basic English skills (Far more important than perfect language skills is a desire to communicate and the willingness to help others to a mutual understanding.)
- Sleeping bag (Bedlinen will be provided in the youth hostel. You will only need a sleeping bag for an overnight stay in the Luisenpark as part of the programme of leisure activities.)

#### Please organise the following in good time:

- Apply for a visa if this is necessary for entering Germany.
- Arrange travel insurance that covers medical expenses in Germany.
- Find out about flights or rail travel. We will help you with booking the travel arrangements. The city of Mannheim will cover the costs for your travel, accommodation and meals in Mannheim.

#### Why a Garden of Twin Cities, why a Workcamp?

In 2023, Mannheim is hosting the Bundesgartenschau (BUGA), Germany's annual national garden show. The BUGA site will include the Garden of Twin Cities, which will showcase the close ties that Mannheim maintains with its twin cities, in most cases going back many years. The display will be designed as a harmonious interplay of diversity and will remain after the BUGA as a permanent symbol of encounter and exchange. The Garden of Twin Cities will embody the growth and vibrancy of Mannheim's international relations. In addition to being a pleasant destination for a day trip, it will serve to inspire participation and creativity, it will attract new target groups whose interest for international cooperation may be aroused. Also, the Garden of Twin Cities will be a place to intensify the overall intercultural dialogue among citizens.

The garden is devised as an object of identification for both, Mannheim residents and visitors from the twin cities. From the outset, the planning and implementation of the garden was conceived as a participative activity. Both guests from Mannheim's twin cities as well as locals work together in designing and building the garden. Together, we will keep it alive and flourishing in the future through a range of celebrations and activities.

In October 2021, the city of Mannheim planned the garden in collaboration with experts from the twin cities. Now the **International Workcamp** marks the second step for Mannheim and its twin cities in the process of creating the Garden of Twin Cities. Alongside the horticultural work of the group, this youth project will also place a special focus on the intercultural exchange.

#### Notes on data protection:

As a preliminary meeting, there will be an international video conference involving the participants from the twin cities. During the Workcamp itself, photos and videos will be produced to illustrate the Workcamp on Mannheim's website and social media sites. Data collection may also be necessary under Covid-19 protection regulations. Garden of Twin Cities – International Workcamp 2022

Dear Colleagues,

In October, the city of Mannheim held a very intensive virtual workshop with its twin cities to plan our *Garden of Twin Cities*. Horticultural experts from Bydgoszcz, Chişinău, Haifa, Klaipėda, Riesa, Toulon, Windsor and Zhenjiang took part in this discussion and achieved excellent results. We are in contact with the twin cities who were unable to take part so that we can integrate typical elements from those regions as well in the overall concept of the Garden of Twin Cities. I would like to thank you once again, for myself and on behalf of our Mayor Dr. Kurz, for all your commitment and the wonderful support of your horticultural colleagues.

In 2022, we look forward to taking the next step together with you. We are inviting up to two young gardeners or horticultural students from each twin city to take part in our International Workcamp in Mannheim from July 10 to 17. Apart from working directly on the Garden of Twin Cities, this workcamp is most of all designed to enable young people from our cities to meet each other and to strengthen the ties between our citizens.

Seite 1/2

We would like to ask for your support with regard to the selection of participants and the travel arrangements. Please publicise the project among young gardeners and horticultural students and select suitable representatives for your city. We attach further details of the workshop as well as the application form for participants. The colleagues from the International Office will be in touch with you to specify travel arrangements and other matters. The city of Mannheim will cover the costs of the stay and all travel expenses for the participants from the twin cities.

Together with the Mannheim City Council, my colleagues from the city administration, the Luisenpark and the BUGA Association, I am already very much looking forward to the Workcamp 2022!

With kind regards,

David Linse Head of Department International and European Affairs and Protocol
