I am very concerned with the six lanes that are being proposed for Banwell Rd. We do not need

six lanes (our E.C. Row expressway does not even have six lanes). The only thing I would suggest

is making the right and left turning lanes longer. That will help traffic flow. A lot of families

as well as animals live in the area. I know that if they put six lanes in, it will add more noise

and pollution to the area. Our health and our environment will be affected in a negative way.
