

November 24th, 2022

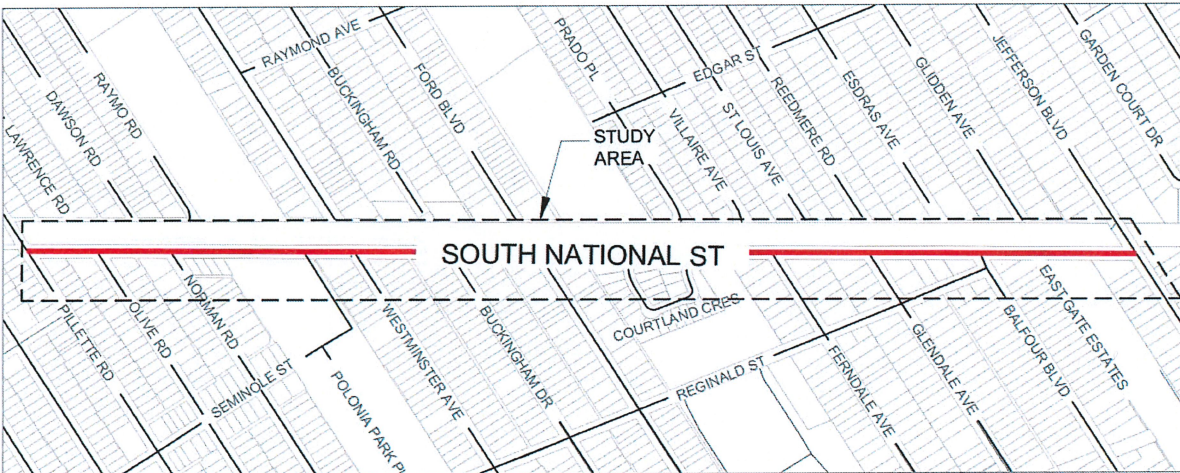

Dear Resident:

**RE: Notice of Public Open House
Traffic Calming Study – South National Street (Pilette Road to Jefferson Boulevard)**

The City of Windsor has received a request for traffic calming in the study area identified. Traffic calming measures are intended to improve conditions for non-motorized users, alter driver behaviour and reduce negative effects of motor vehicle use.

Consultation with the public and review agencies is an essential component of the City of Windsor's Traffic Calming Policy. A public open house is scheduled for **Monday, December 5th, 2022, from 4:00 PM to 8:00 PM**. All interested stakeholders are invited to attend this drop-in style open house to:

- Meet the project team
- Become informed about the traffic calming process.
- Learn about the results of the neighbourhood review.
- Review the draft traffic calming plan.
- Provide feedback and input.

The project team is interested in hearing the community's comments, questions and concerns regarding the implementation of traffic calming in the study area. Comments and input gathered from the public and review agencies will be taken into consideration during the subsequent planning and design activities.

If you are unable to attend the open house and would like to obtain more information or if you have any project related questions, please contact Awele Italiano, Transportation Planning Coordinator, by telephone at 519-255-6100 ext. 6831 or by e-mail at aitaliano@citywindsor.ca.

Project-related information including display boards from this open house will be maintained on the traffic calming website here <https://tinyurl.com/tcalming> or search for "traffic calming" on the City of Windsor website (www.citywindsor.ca).

Sincerely,

Jeff Hagan, P. Eng., PTOE
Transportation Planning Senior Engineer
