**ADDENDUM NO. 3  
DESIGN-BUILD SALT DOME – CENTRAL AVE.  
RFP NO. 76-19**

**April 29, 2019**

This addendum amends and forms part of the Proposal Documents. The Proponent shall insert the addendum behind the cover page of the Proposal Documents.

**QUESTIONS & ANSWERS:**

- 1.) On the Bid Form, it asks for the contractor's labour rates excluding any overhead and profit and then states that this is to be used for calculating the cost of possible extra work. What mark up and overhead will the City permit to be added to these rates if an extra to contract does occur?

Please refer to ADDENDUM #2 dated April 25, 2019, question and answer #1, which addressed the above question.

- 2.) In the OSR on page 34 it states that permits are to be supplied by the contractor. Will the City waive the building permit fee?

City will not waive the building permit fees.

- 3.) Will concrete testing (air content, slump, temperature & cylinder breaks) be required? If so who is to pay for it?

Concrete testing will be provided by the City but will require a minimum of 24-hour notice prior to any concrete placement.

- 4.) The OSR also specifies a concrete apron at the front of the entrance. Is this apron to be covered or is it just an uncovered concrete pad?

The concrete pad will be uncovered.

- 5.) At the site meeting the City stated that they will remove the existing catchbasin in the area of the new dome. Is the City going to remove the existing asphalt in the new dome location?

The City will not remove the asphalt within the new salt dome location.

- 6.) The City is to install asphalt after the dome is complete. Is the City going to supply and install granular to provide the correct grades for the asphalt?

Rough grading and backfill of footings shall be done by the successful contractor. The City will supply and install granular to provide the correct grades for asphalt placement.

Except for the contents of this addendum, all other terms and conditions of this proposal remain the same.

**END OF ADDENDUM NO. 3**
