**39.01. SCOPE OF WORK**

This specification covers the requirements for the bedding and cover materials to be used when backfilling around the various existing utilities (plant) within the City of Windsor.

**39.02. MATERIALS**

The Contractor shall supply all materials.

**39.03. EQUIPMENT**

The Contractor shall supply all equipment.

**39.04. CONSTRUCTION**

The Contractor shall be required to backfill directly around any plant as directed by the owner of the plant. Once uncovered during any construction activities, the Contractor shall contact the owner of the plant should any questions arise to the bedding and cover required around said plant.

The Contractor shall be responsible for damage to any uncovered plant and shall notify the owner of the plant, in accordance with any applicable laws or legislation, how the damage occurred.

**39.05. BASIS FOR PAYMENT**

Payment for the above and all ancillary work required, shall be included in the unit prices in the Form of Tender.
