## Police Services

3.1 POLICE SERVICES – EFFICIENCY	
	<b>2005</b>
	\$303.77
<p><b>Efficiency Measure</b> Operating costs for police services per household.</p>	
<p><b>Objective</b> Efficient police services.</p>	
<p><b>Notes</b></p> <p>The use of the number of households in determining the performance measures has been changed effective in 2005 and the figures now are reported on a per person cost as opposed to a per household cost. There is validity in using the population as the denominator as opposed to the household figure. Another continuing challenge that exists is with respect to the absence of the received revenue in the calculation of the FIR. The Windsor Police Service has for years strived to gain revenue in a variety of areas including government grants, secondments, casino patrol, collision reporting centre, sale of reports and administration fees for contract duty. These revenues total over \$5,788,000 and would have a significant impact on the final comparator. Some of the listed figures that Police are unable to deduct from total gross expenditures are: 1) Casino contract regarding casino patrol - \$1,886,000; 2) Staff positions funded by other agencies and organizations, i.e., seconded positions for OPC and CPC, (ROPE) Provincial Repeat Offender Parole Enforcement, Provincial Anti-Terrorism Sections (PATS), Provincial Illegal Gaming Unit, Firearms Unit, Bingo &amp; Lottery Licensing, POA Security Police Officers. These positions total \$890,000; 3) Provincial grants for Community Policing Partnership program (CPP) and Reduce Impaired Driving Enforcement (RIDE) - \$719,750; 4) Permits, fees and services - \$333,000; 5) Contract Duty Administration fees - \$263,400; 6) Alarm registration and maintenance revenue - \$259,500; 7) Administration fees for towing vehicles - \$140,400; 8) Accident Reporting Centre revenue - \$97,700; 9) Other general revenue - \$1,200,000. As much as Police strives to find a method that will allow municipalities and police services to find a comparator that will allow appropriate comparisons, extreme caution should be taken in drawing any conclusions to these values.</p>
