A. Providing goods and services to people with disabilities

The Corporation will make reasonable efforts to:

- Provide its goods and services in a way that respects the dignity and independence of people with disabilities.
- Give people with disabilities the same opportunity to access our goods and services and allow them to benefit from the same services, in the same place and in a similar way as other customers.
- Communicate in a manner that takes into account the person's disability.

B. Assistive devices

Customer's own assistive device(s)

A person with a disability may provide their own assistive device for the purpose of obtaining, using and benefiting from the Corporation's goods and services unless otherwise prohibited by law (i.e.: health and safety reasons). In such situations the City may offer person with a disability other reasonable measures to assist him or her in obtaining, using and benefiting from the Corporation's goods and services, where the Corporation has such other measures available.

Assistive devices provided by the City

Where applicable, assistive devices owned and operated by the Corporation will be available to assist with serving the customer's needs and requirements while utilizing the goods and services offered by the Corporation. Available assistive devices, and the procedure for accessing them, are outlined in the City of Windsor Assistive Devices Procedure.

C. Use of Service Animals

We are committed to welcoming people with disabilities who are accompanied by a service animal on the parts of our premises that are open to the public and other third parties. If a guide dog or other service animal accompanies a visiting person with a disability, the Corporation shall ensure that the person is permitted to enter the premises with the animal and keep the animal with him or her.

Exceptions to the rule

Service animals will not be permitted:

- i. Where food preparation is being undertaken;

- ii. As otherwise disallowed by law.

If a service animal is excluded by law, the Corporation will ensure that alternate means are available to enable the person with a disability to obtain, use or benefit from the Corporation's goods and services.

Recognizing a Service Animal

Where an animal is not a trained guide dog and it is not readily apparent that the animal is used by the customer for reasons relating to his or her disability, the Corporation may request a letter from a physician or nurse confirming that the person requires the animal for reasons related to the disability.

The customer may have an alternate form of verification that they prefer to offer; in such a situation the Corporation may also accept as confirmation a valid identification card signed by the Attorney General of Canada or a certificate of training from a recognized guide dog or service animal training school.

Care and Control of the Animal

A customer with a disability who is accompanied by a service animal must maintain care and control of the animal at all times.

Allergies

If a customer or staff member has a severe allergy to animals, which could result in health and safety concerns, the Corporation shall make reasonable efforts to meet the needs of all individuals.

More specific information related to service animals may be found in the City of Windsor Service Animal Procedure.

D. Use of Support Persons

The Corporation is committed to welcoming people with disabilities who are accompanied by a support person. If a support person accompanies a visiting person with a disability, the Corporation shall ensure that both persons are entitled to enter the premises together and that the person with a disability is not prevented from having access to the support person while on the premises.

When a Support Person may be required

The Corporation may require a visiting person with a disability to be accompanied by a support person when on the premises, but only if a support person is necessary to protect the health or safety of the person with a disability or the health and safety of others on the premises.

Refer to the City of Windsor Support Person Procedure for details about the criteria that should be used in making such a determination.

Fees and admission

If an amount is payable by a support person for admission to the premises or in connection with a support person's presence at the premises the Corporation shall ensure that notice is given in advance about the amount, if any, payable in respect of the support person by posting notice of fees for support persons wherever Corporate fees are posted.

More specific information related to fees and admission for support persons may be found in the City of Windsor Support Person Procedure.

Information to be included in notice

The Corporation will make reasonable efforts to provide notice of the disruption to the public, including:

- i) information about the reason for the disruption;
- ii) its anticipated duration; and
- iii) a description of alternative facilities or services, if any, that may be available.

The training will be provided to each person as soon as practicable after he or she is assigned the applicable duties. Training records

The Corporation shall keep records of the training provided under this section, including the dates on which the training is provided and the number of individuals to whom it is provided.

G. Feedback process

Comments on our services, regarding how well customer expectations are being met, are welcome and appreciated.

Feedback regarding the way the Corporation provides goods and services to people with disabilities can be made by a person with a disability in the manner deemed most convenient to them, such as in person, by telephone, TTY, Textnet, in writing or by delivering an electronic text by email or on CD or otherwise. More specific information about feedback procedures is set out in the City of Windsor Feedback Procedure.

H. Notice of availability and format of documents

The Corporation shall notify persons to whom it provides goods or services that the documents required under this regulation are available upon request and in a format that takes into account the person's disability. This notice may be given by posting the information at a conspicuous place owned and operated by the Corporation, the corporate website and or any other reasonable method.
