

LITTLE RIVER POLLUTION CONTROL PLANT EXPANSION MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY

THE STUDY

The City of Windsor is undertaking a Schedule 'C' Municipal Class Environmental Assessment (Class EA) Study for the Little River Pollution Control Plant (LRPCP). The study objective is to identify the most environmentally responsible, cost-effective and sustainable solution to address the need for additional wastewater treatment capacity at the LRPCP. This study is being carried out in accordance with the requirements of the Municipal Class EA (2023), approved under the Ontario *Environmental Assessment Act*. This study will conclude with an Environmental Study Report to document consultation activities and preferred design recommendations.

PROJECT BACKGROUND

In 2020, the City of Windsor endorsed its first comprehensive Sewer and Coastal Flood Protection Master Plan (SMP). The SMP identified treatment capacity limitations at the LRPCP and confirmed that during severe wet weather conditions the facility is unable to treat all wet weather flow. In 2021, the City of Windsor initiated a master servicing plan for the Sandwich South Area (SSMSP) geared towards providing the required municipal infrastructure in support of growth. The SSMSP, outlined limitations of the LRPCP and recommended to increase the capacity to accommodate the development in Sandwich South. Additional information regarding this Class EA Study can be found on the City's project website:

PUBLIC INFORMATION CENTRE NO. 3

**Wednesday October 15th, 2025
3:00 p.m. – 6:00 p.m.**

**WFCU Centre, Ontario Room
8787 McHugh Street, Windsor, ON**

PUBLIC CONSULTATION

The City is hosting Public Information Centre (PIC) No. 3 to present the alternative design concepts and treatment technologies for the LRPCP Class EA Study. Consultation is an integral part of the Class EA process and members of the public, agencies, and other interested persons are invited to participate in the upcoming PIC. Following the PIC, comments will be received until November 15th, 2025.
