To identify known and potential built heritage resources and cultural heritage landscapes in the Study Area, this memo followed guidance outlined in the Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) *Criteria for Evaluating Potential for Built Heritage Resources and Cultural Heritage Landscapes: A Checklist for the Non-Specialist* ("the Checklist").

The approach and methodology used to complete the Checklist is provided in Section 2.0, the results from the Checklist are provided in Section 3.0, and recommendations are provided in Section 4.0. Historical aerial imagery is included in Appendix A, and the completed MHSTCI Checklist for each area provided in Appendix B.

2.0 Approach and Methodology

2.1 Regulatory Requirements

The requirements to consider cultural heritage in Ontario are found in the *Provincial Policy Statement* (PPS) (Government of Ontario 2020) and the *Ontario Heritage Act*, R.S.O. 1990, c. O.18 (Government of Ontario 1990).

2.1.1 Provincial Policy Statement

The PPS provides policy direction on matters of provincial interest related to land use planning and development (Government of Ontario 2020:1). Under the PPS, the conservation of cultural heritage is identified as a matter of provincial interest. Section 2.6 of the PPS gives direction on the consideration of cultural heritage and archaeology (Government of Ontario 2020:31). Specifically, the following direction is given regarding built heritage resources, cultural heritage landscapes, and protected heritage properties:

2.6.1 Significant built heritage resources and significant cultural heritage landscapes shall be conserved

2.6.3 Planning authorities shall not permit development and site alteration on adjacent lands to protected heritage property except where the proposed development and site alteration has been evaluated and it has been demonstrated that the heritage attributes of the protected heritage property will be conserved.

2.6.5 Planning authorities shall engage with Indigenous communities and consider their interests when identifying, protecting and managing cultural heritage and archaeological resources.

(Government of Ontario 2020: 31)

2.1.2 Ontario Heritage Act

The *Ontario Heritage Act*, R.S.O. 1990, c.018, provides a framework for the protection of cultural heritage resources in the province. It gives municipalities and the provincial government powers to protect heritage properties and archaeological sites. The *Ontario Heritage Act* includes two regulations for determining Cultural Heritage Value or Interest (CHVI): *Ontario Regulation* (O. Reg.) 9/06 and O. Reg. 10/06. O. Reg. 9/06 provides criteria to determine the CHVI of a property at a local level while O. Reg. 10/06 provides criteria to determine if a property has provincial significance (Government of Ontario 1990).

2.2 Guidance Documents

The MHSTCI is responsible for the administration of the *Ontario Heritage Act* and has developed checklists, information bulletins, standards and guidelines, and policies to support the conservation of Ontario's cultural heritage resources, including built heritage resources, cultural heritage landscapes, and archaeological sites. For cultural heritage, the Checklist is used to screen for known (or recognized) heritage properties and properties with potential CHVI. The Checklist also includes screening criteria for local or Indigenous knowledge that may suggest a property acts as a landmark, has special historical associations, or is part of a cultural heritage landscape. The Checklist represents a high-level screening for properties with CHVI. Where properties with known or potential CHVI are identified as part of the Checklist, further work may be recommended as appropriate, such as a Cultural Heritage Report: Existing Conditions and Preliminary Impact Assessment (CHR), Cultural Heritage Evaluation Report (CHER), or Heritage Impact Assessment (HIA).

2.3 Background Research

2.3.1 Desktop Data Collection

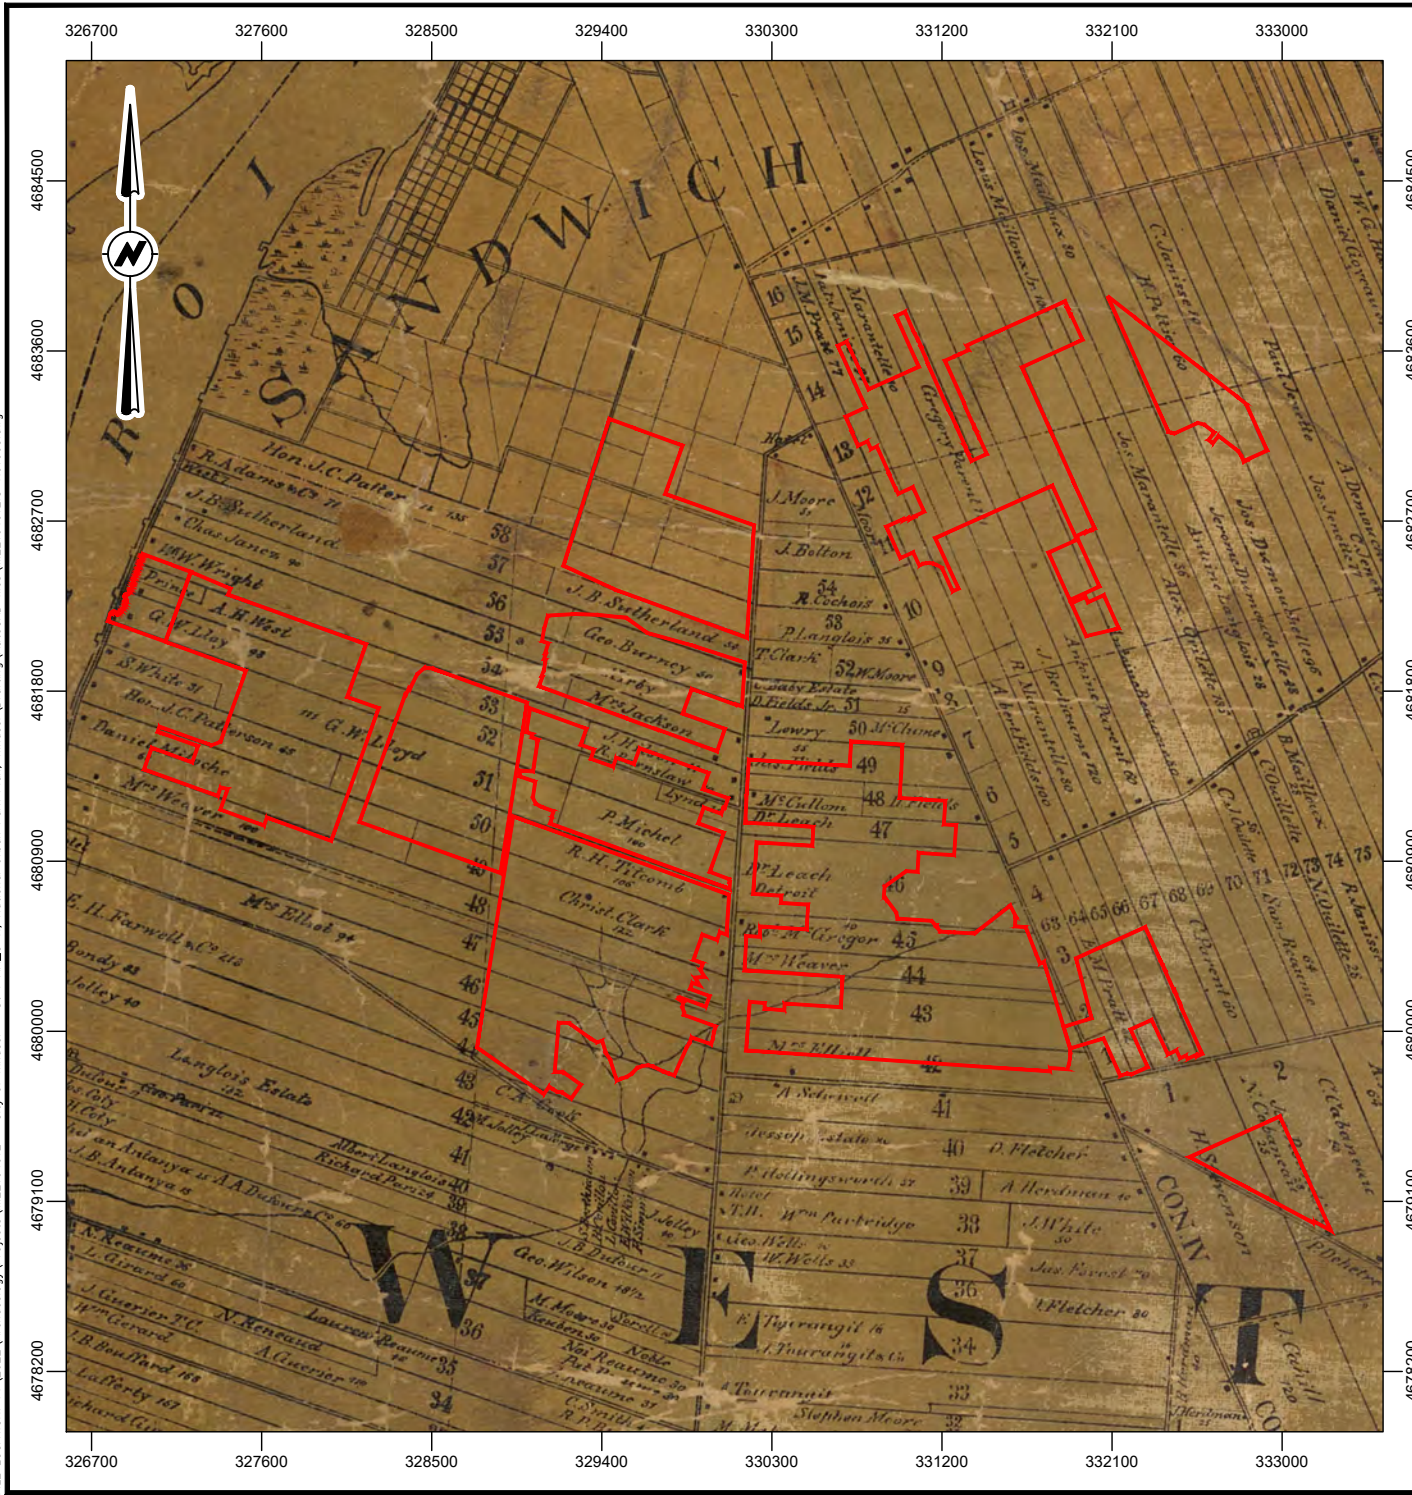

The Checklist was completed through a combination of desktop data collection and municipal and agency information gathering conducted via phone and email. The desktop data collection was completed following the instructions provided in pages 4-8 of the Checklist. To identify known (or recognized) heritage properties, the following online sources were reviewed:

- City of Windsor's Cultural Heritage Application (City of Windsor 2022)
- Easements/Protections, (Ontario Heritage Trust 2022)
- Plaques Database (Ontario Heritage Trust 2021)
- Directory of Federal Heritage Designations (Parks Canada 2018)
- Designated Lighthouses (Parks Canada 2019)
- Directory of Designated Heritage Railway Stations in Ontario (Parks Canada 2022)
- World Heritage List (UNESCO 2022)
- Bereavement Authority of Ontario: Home, City of Windsor Cemeteries (2017)
- Canadian Heritage Rivers System (2022)

In addition, historical mapping and aerial photographs was reviewed to identify settlements, structures, and landscape features within and adjacent to the Study Area. Historical maps from 1877, 1881, 1905, 1910, 1913, 1923, 1924, 1939, 1957, 1961, 1962, 1974, 1975, 1979, 1986, 1995, 1996 and 2001 were reviewed during background research, although it was determined that the 1877, 1881, 1905, 1910/1913, 1957, 1974/1975, and 2001 maps best illustrated the significant changes in the Study Area (Figure 3-Figure 9). Aerial imagery from the University of Toronto (1954), City of Windsor Archives (1962, 1972a, 1972b, 1978a, 1978b, 1978c, 1978d, 1978e, 1978f), City of Windsor (2019) and recent Google Earth imagery were found to best document change in the Study Area (Appendix A).

The desktop data collection also included a search for previous investigations. One previous cultural heritage report was identified, and covered Malden Park, in the north central part of the Study Area. This cultural heritage screening was conducted by Golder Associates as part of the K+S Windsor Salt Ltd. Mining Rights Only Leases Renewal Class EA. However, since the Class EA is still in progress, the report was unavailable for review (NDMNRF 2021).

2.3.2 Information Gathering

The City of Windsor, Ontario Heritage Trust (OHT), and MHSTCI were contacted via email to determine whether listed, designated, or protected heritage properties are within and adjacent to the Study Area.

Kristina Tang, Heritage Planner at the City of Windsor, responded that there are no recognized heritage properties within the Study Area. Further communication determined that there was a historic plaque on the corner of Sandwich Street and Ojibway Parkway, outside of the Study Area.

Karla Barboza, Acting Team Lead at the MHSTCI, reported that there are no properties designated under the *Ontario Heritage Act* by the Minister or provincial heritage properties within, or adjacent to, the Study Area.

To date, no response has been received from the OHT.

It is recognized that cultural heritage resources are often of importance to Indigenous communities. Parks Canada is currently undertaking Indigenous Engagement as part of this project. Should the engagement determine that the Study Area contains known or potential cultural heritage resources that are of significance to Indigenous Nations, then this memo will be updated as appropriate.

3.0 MHSTCI Checklist Results

From the results of the desktop data collection and municipal and agency information gathering, a Checklist was completed for each of the 11 areas to establish the presence, or absence, of known or potential cultural heritage resources within the Study Area. A summary of the 11 checklists is provided in Table 1. An "X" is used where the answer to one of the Checklist questions is "No", while a red underlined checkmark is used when the response to a question is "Yes". The completed checklists are provided in Appendix B.

4.0 Discussion and Recommendations

From completion of the Checklists, it was determined that there are nine areas with potential CHVI. Table 2 provides a summary of the results. Grey shading is utilized to indicate properties with potential CHVI which are recommended for further work.

Since the CHVI of these locations have not been confirmed, any proposed development should be preceded by a Cultural Heritage Evaluation Report (CHER). The CHER should include detailed historical research, information gathering, and fieldwork to document existing conditions and any potential heritage attributes of the property. The property should also be evaluated for CHVI using the criteria prescribed in O. Reg. 9/06 of the *Ontario Heritage Act* (Government of Canada 1990, 2006). If the CHER determines that the property has CHVI, then a Statement of Cultural Heritage Value and list of heritage attributes will be drafted.

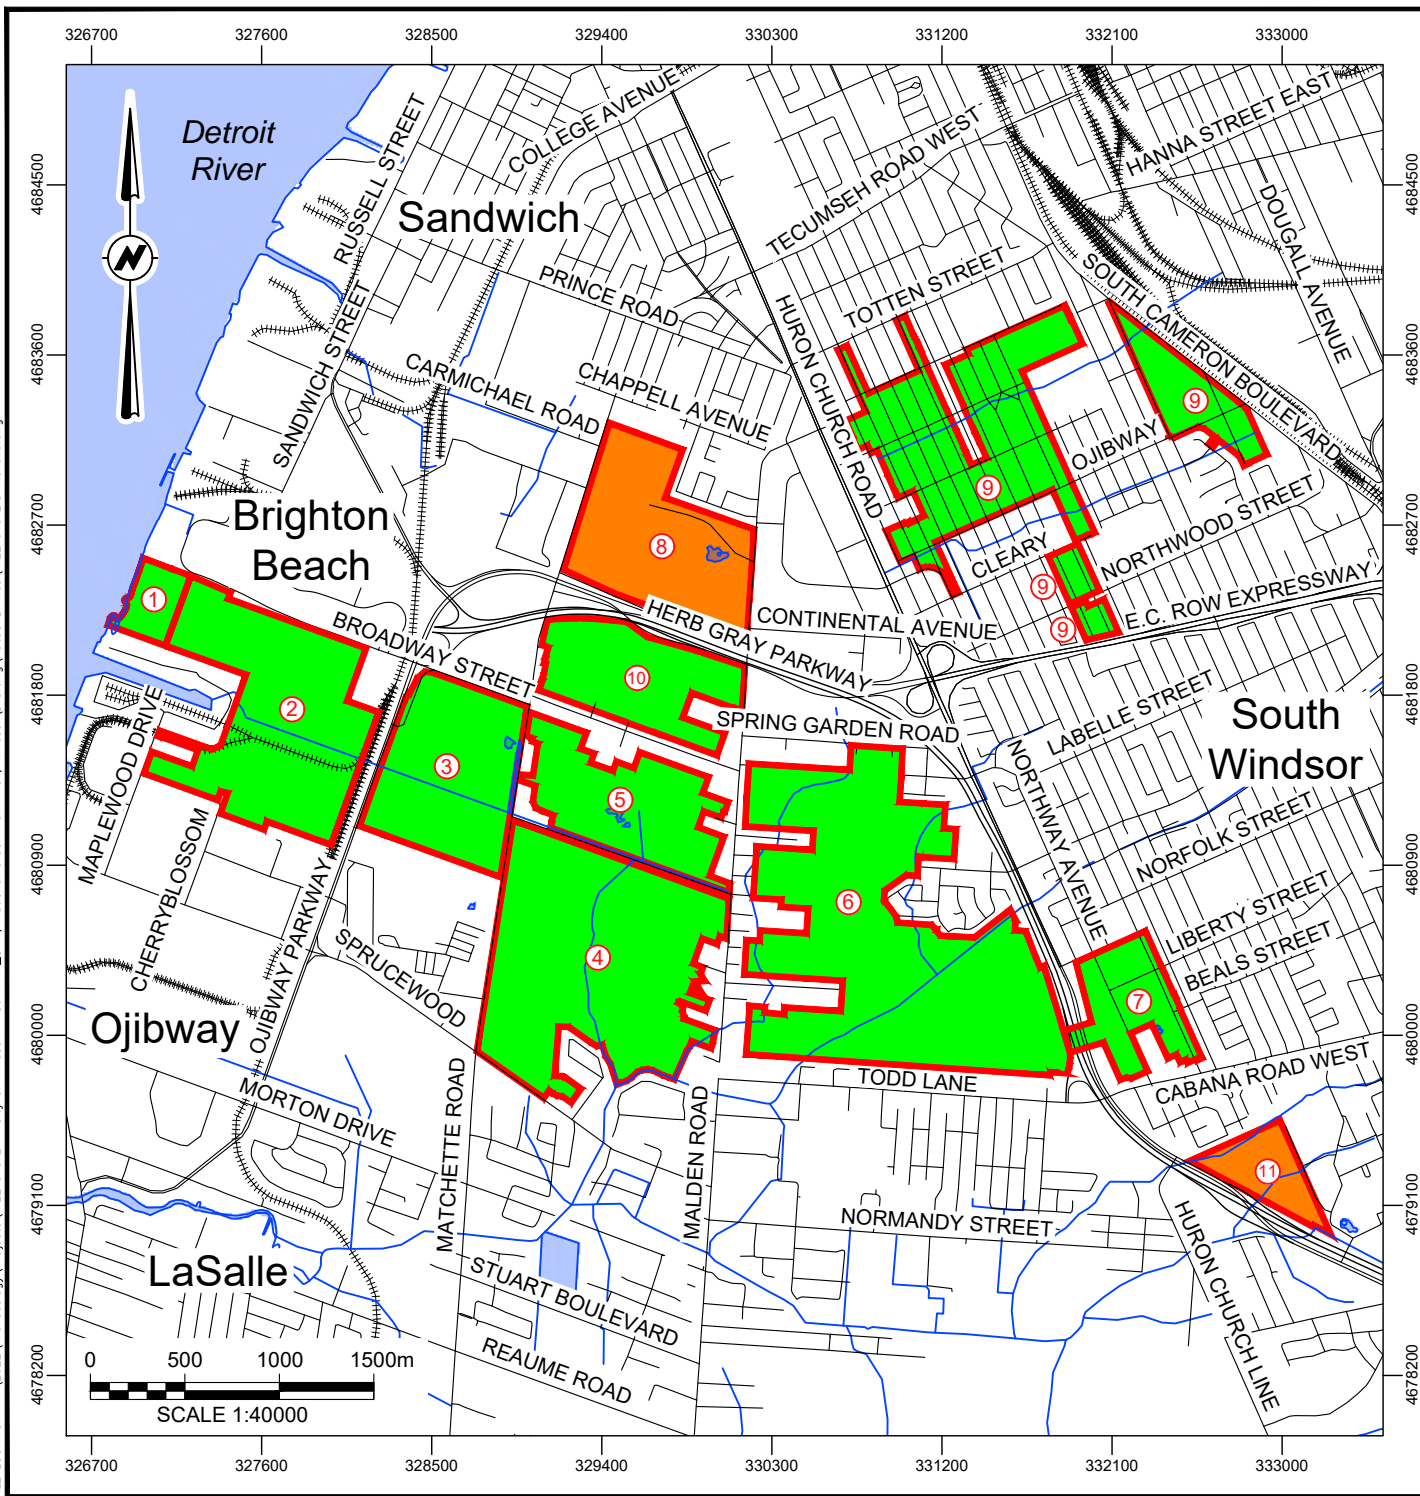

These results and recommendations are summarized in Table 2 and depicted in Figure 10.

4.1 Summary of Recommendations

Based on the completion of the MHSTCI Checklist and associated background review, the following recommendations are made:

1. It is recognized that cultural heritage resources are often of importance to Indigenous communities and that Parks Canada is currently undertaking Indigenous Engagement as part of this project. Until Indigenous Engagement is complete, the results of the cultural heritage screening are subject to change. Once Indigenous Engagement is complete, this memo will be updated as appropriate.
2. From completion of the Checklists, it was determined that there are nine areas with potential CHVI (Ojibway Shores, Black Oak, Ojibway Park, Ojibway Prairie, Tallgrass, Spring Garden, Oakwood, South Cameron, and Armanda).
 - o In the event of proposed development these locations are recommended for further work in the form of a Cultural Heritage Evaluation Report (CHER) since the CHVI of these locations have not been confirmed. If required, the CHER should include detailed historical research, information gathering, and fieldwork to document existing conditions and any potential heritage attributes. From this compiled information the location should then be evaluated for CHVI using the criteria prescribed in O. Reg. 9/06 of the *Ontario Heritage Act* (Government of Canada 1990, 2006)
3. No further cultural heritage work is recommended for the remaining two potential park locations (Malden Park and St. Clair).

We trust that the information presented in this memo meets your current requirements. Should you have any questions, or concerns, please do not hesitate to contact the undersigned.
