**3. PLANNING ANALYSIS:**

The subject property, legally described as Plan 977 Lots 152 and 153 and Part of a Closed Alley, RP 12R26351; Parts 2, 3,13,14, and 24, is currently vacant. The applicant proposes to construct a semi-detached dwelling containing additional dwelling units with an increased main building Gross Floor Area (GFA), along with an accessory building containing an additional dwelling unit with increased GFA and height. The requested variances are intended to provide additional living space within the main and accessory buildings. Accordingly, relief from Zoning By-law 8600 is required to permit the proposed increases in the GFA for the main building and both GFA and height for the accessory building. The subject lands form part of a previously approved Hold Removal application to facilitate their development. On-site parking will be provided, and the requested variances are not anticipated to result in adverse impacts on the surrounding properties.

**PLANNING ACT**

Subsection 45(1) of the Planning Act states that the Committee of Adjustment “*may, despite any other Act, authorize minor variance from the provisions of the by-law, in respect of the land building or structure or the use thereof, as in its opinion is desirable for the appropriate development or use of the land, building or structure, if in the opinion of the committee the general intent and purpose of the by-law and of the official plan, if any, are maintained.*”

**PROVINCIAL PLANNING STATEMENT (PPS) 2024**

The Planning Staff has reviewed the relevant policies of the PPS - “*Building Homes, Sustaining Strong and Competitive Communities*” (Policy statement 2.2.1. of the PPS). The requested minor variances are consistent with these policies, permitting and facilitating housing options required to meet the social, health, economic, and well-being requirements of residents while efficiently utilizing land, resources, and infrastructure.

## **OFFICIAL PLAN (OP)**

The Minor Variance Policies in Section 11.6.6 are hereto attached as **Appendix A**. Section 11.6.6.2 outlines the evaluation criteria for minor variance applications. The general intent and purpose of the Official Plan is maintained with the proposed development; the requested variances are minor in nature and desirable for the subject property.

The subject land is designated *Residential* per the Official Plan. The proposed development is permitted and conforms to the associated objectives and policies. Therefore, the requested variances meet the general intent and purpose of the Official Plan per Section 11.6.6.2(a).

The proposed development is permitted and conforms to the zoning by-law provisions, except for the requested variances. Therefore, the general intent and purpose of the by-law being varied is maintained in accordance with Section 11.6.6.2(b).

The requested variances are minor in nature, remaining within the Official Plan guideline of generally not more than 20 percent above the By-law standard, and are therefore consistent with Sections 11.6.6.2(c) and (d).

Finally, the variances are desirable for the appropriate use of the land, building, or structure and would not hinder the reasonable development and/or use of properties in the neighbourhood, thus complying with Section 11.6.6.2(e).

## **ZONING BY-LAW 8600**

The subject land is zoned Residential District 2.2 (RD2.2) under Zoning By-law 8600, which permits a semi-detached dwelling. The proposed development complies with the provisions of Section 11.2.5, except for the requested minor variance for increased main building gross floor area. Other variances pertain to relief from the gross floor area and height for an accessory building with an additional dwelling unit under Section 5.99.80.

The proposed variances are not anticipated to result in undue hardship on the owner, neighbouring properties, or the public realm. Therefore, the variances are considered minor in nature, and the proposed development maintains the general intent and purpose of Zoning By-law 8600.

#### **4. PLANNER'S OPINION:**

The requested variances are minor in nature and maintain the general intent and purpose of the Official Plan and Zoning By-law 8600. Therefore, the variances are consistent with section 45 (1) of the Planning Act. The Planning Division recommends approval of the applicant's request with no conditions.
