

DOWNTOWN TRANSPORTATION STRATEGY

Notice of Study Completion

The City of Windsor has completed a study to develop a sustainable strategy for a transportation system that supports Council’s Strategic Vision for a vibrant and inviting Downtown Windsor focusing on place making and supporting active transportation choices, taking into account existing and planned land uses

The goal of this study is to repurpose the existing public right-of-way to optimize space for streetscaping, utilities and all users (vehicles, transit, bicycles and pedestrians) to achieve a balanced transportation network for people that encourages non-motorized uses and establishes vibrant and inviting public spaces.

Information regarding Needs and Opportunities was presented for public review and comment at a Public Information Centre held on June 18th, 2015. Information regarding the Development and Evaluation of Alternatives was presented for public review and comment at a Public Information Centre held on October 14th, 2015.

Following an evaluation of options, and taking into consideration public comments, a transportation strategy focused around the routine accommodation of improvements to active transportation modes along corridors that have either the greatest needs and/or best opportunity for place making and improving active transportation was developed.

A Report documenting the planning process that led to the development of the transportation strategy will be available for public review at the following locations:

<p>Windsor Public Library, Central Branch</p> <p>850 Ouellette Avenue, Windsor, ON N9A 4M9</p>	<p>City of Windsor Office of the City Clerk</p> <p>350 City Hall Square West, Suite 203, Windsor, ON N9A 6S1</p>	<p>City of Windsor Office of the City Engineer</p> <p>1266 McDougall Street, Windsor, ON N8X 3M7</p>
---	---	---

Any person or party with an outstanding issue must forward their comments in writing to the City’s Project Administrator and/or CIMA’s Project Manager prior to November 30, 2016.
