

August 16, 2021

Dear Property Owner:

**Re: Project Notification – E.C. Row Ave & E.C. Row Collector - Multi-Use Trail
City of Windsor Tender 75-21**

Tentatively scheduled to start the week of September 6, 2021, the City of Windsor – Office of the City Solicitor – Transportation Planning Department, will be undertaking a project to construct:

- A Multi-Use Bicycle path along the north side of E.C. Row Avenue between Bliss Road and Walker Road and along the south side of E.C. Row Collector between Walker Road and Riberdy Road.

During construction, signs will be posted indicating that PORTIONS of the road will be restricted to one traffic lane.

The Contractor for this project is Quinlan Inc., with Mr. Todd Quinlan serving as Project Manager (telephone 519 - 796 4690). If a construction problem should arise, please contact the City's Operations Department at 519-255-6326.

Included in the work is surface restoration in which the Contractor is required to restore any driveways affected by the construction to at least equal their pre-construction conditions. Any existing lawns damaged by the construction will be restored. To ensure proper restoration, photos have been taken of the area prior to construction.

NOTE: Please contact the City's Operations Department at 519-255-6326 if you have a sprinkler system installed on your property.

It should be noted that the City does not require the Contractor to restore fences, shrubs, hedges, irrigation systems or decorative landscaping which is on the public right-of-way.

All property owners are urged to remove such items or notify the City well in advance in order to avoid unnecessary damage.

Regarding public safety, it should be stressed that construction sites have many potential hazards. All area residents and general public should exercise extreme caution.

It is inevitable that construction will cause some inconvenience in your area (e.g. driveways may not be accessible for short periods of time). Every effort will be made to minimize these inconveniences.

TRANSPORTATION PLANNING

PLANNING AND BUILDING DEPARTMENT

Should you have further questions related to the upcoming construction, please contact Mr. Juan Paramo of this division at 519-999-6378

We appreciate your patience and cooperation during construction.

Sincerely,

Jeff Hagan, P. Eng.
Senior Transportation Planning Engineer, Transportation Planning
