

March 07, 2022

Dear Property Owner:

**Re: Project Notification – Hawthorne Drive Cycle Tracks and Multi-Use Trail
City of Windsor Tender 36-22**

Tentatively scheduled to start the week of April 11, 2022, the City of Windsor – Transportation Planning Department, will be undertaking a project to construct:

- Cycle Tracks and a Multi-Use Trail along Hawthorne Drive between Kew Drive and Lauzon Road.

During construction, signs will be posted indicating that PORTIONS of the road will be temporarily closed, but local traffic will be accommodated as much as possible.

The Contractor for this project is Piera Con Inc., with **Mr. Jeremiah Baker** serving as **Project Manager (telephone 519-972-0323)**. If a construction problem should arise, please contact the **City's Operations Department at 519-255-6326**.

Included in the work is surface restoration in which the Contractor is required to restore any driveways affected by the construction to at least equal their pre-construction conditions. Any existing lawns damaged by the construction will be restored. To ensure proper restoration, photos have been taken of the area prior to construction.

NOTE: Please contact the City's Operation Department at 519-255-6326 if you have a sprinkler system installed on your property.

It should be noted that the City does not require the Contractor to restore fences, shrubs, hedges, or decorative landscaping which is on the public right-of-way.

All property owners are urged to remove such items in order to avoid unnecessary damage.

Regarding public safety, it should be stressed that construction sites have many potential hazards. All area residents and general public should exercise extreme caution.

It is inevitable that construction will cause some inconvenience in your area (e.g. driveways may not be accessible for short periods of time). Every effort will be made to minimize these inconveniences.

Should you have further questions related to the upcoming construction, please contact Mr. Juan Paramo of this division at 519-999-6378.

We appreciate your patience and cooperation during construction.

Sincerely,

Jeff Hagan, P. Eng.
Senior Transportation Planning Engineer, Transportation Planning
