

Little River Study Area - NEXT STEPS

PROJECT DEVELOPMENT

City staff will receive feedback from residents and agencies.

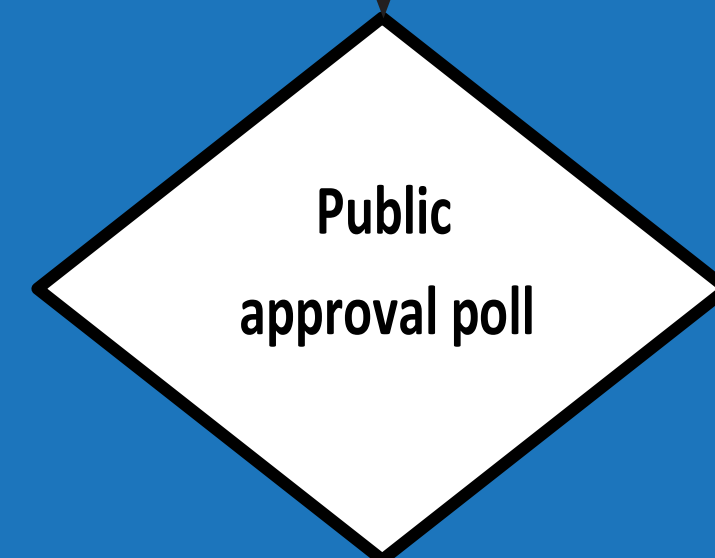

After the end of the comment period, City staff will develop a traffic calming plan, taking into account the feedback received.

PROJECT APPROVAL

Residents in the study area will receive a notice with details on the traffic calming plan and voting instructions for a 311 poll.

Share plan with study area

Not Supported

First time: plan is revised and approval process begins again

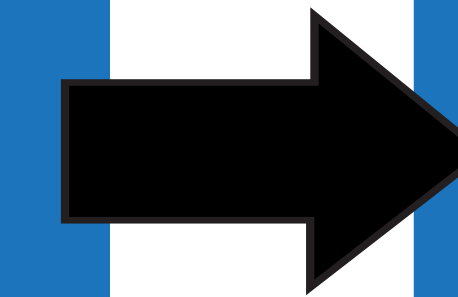

Supported

Plan presented to Council for approval and funding

Second time: process ends

The location is ineligible for a new traffic calming review for 5 years

City staff will bring traffic calming plans forward to Council for funding approval in order of priority score.

PROJECT IMPLEMENTATION

After Council approval, traffic calming measures will be installed.

At the end of a 6-12 month monitoring period, City staff will prepare an outcome report to Council.
