

Eastern RedBud

Cercis canadensis

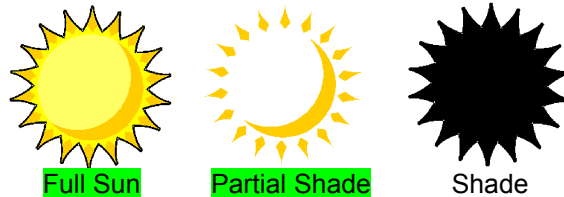

Hardiness Zone 5
 Mature Height 20-30 feet
 Mature Form Rounded to broad spreading, often taking on a picturesque form
 Features Bright, magenta pink flowers in spring, produced in large quantity; yellow fall color; mildly shaggy bark shows up well in winter
 Insect or Diseases Stem cankers and Verticillium wilt
 Culture Full sun to partial shade; moist, well-drained soil (trees in full sun may need more water); tolerates alkaline soils
 Notes An understory tree, so fairly shade tolerant
