

## **SITE PLAN APPROVAL RE-REVIEW APPLICATION**

### **INSTRUCTIONS**

---

**Prior to submission, pre-consultation meeting is mandatory in accordance with By-law 199-2007A:**

- a) Planning Department – Zoning - to review proposal for zoning compliance
- b) Planning Department – Development Division - to review proposal for Official Plan conformance and Site Plan Control guidelines as well as complete application with applicant.

***NOTE: Pre-consultation does NOT represent approval or denial of application.***

Please contact the Planning Department to set up a meeting with the Zoning Coordinator and the Site Plan Approval Officer or designate.

**Complete all sections in full. Provide the full name of all contact people and the name of the company. If the applicant is a registered numbered company, principles names must be provided and/or a corporate profile report. Without providing this information, the application will be deemed incomplete and delays in processing may occur.**

Complete Section 4 in full and indicate the appropriate unit of measurement. Use additional pages as required.

Submit with the application form all required plans and documents as indicated in Section 5. All plans/drawings shall be accurate, legible and professionally drawn and **folded** to a 8 ½” x 14” size, otherwise submission will not be accepted. In addition to required prints/reductions, submit drawings and complete application in **pdf** format on compact disc (CD). Files to not exceed 4500 MB. ZIP files will not be accepted.

Include signature of applicant, agent and registered owner as applicable in Section 6.

File the completed and signed application, all supporting documentation and plans, and the application fee with Planning Department Site Plan Approval Officer, 4<sup>th</sup> Floor - 400 City Hall Square East, Room 404.

The Site Plan Approval Officer will review the application and will return it if the application, plans/drawings or documents are incomplete or if the fee is unpaid. All inquiries as to the status of the application should be directed to the Site Plan Approval Officer.

**Allow a minimum of six – eight weeks for processing of the application.** Construction seasons normally require longer approval times.

### **APPLICATION FEE**

---

Total Application Fee:

### 7. SPECIES AT RISK ACKNOWLEDGEMENT

Ontario's *Endangered Species Act* protects endangered and threatened species — animals and plants in decline and at risk of disappearing from the province by restricting activities that may affect these plants, animals or their habitats.

I acknowledged that it is my sole responsibility as the Applicant to comply with the provisions of the *Endangered Species Act, 2007, S. O. c.6*. This could require me to register an activity, get a permit or other authorization from the Ministry of Natural Resources and Forestry (MNR) prior to conducting an activity that could impact an endangered or threatened plant or animal or its habitat. I further acknowledge that any *Planning Act, R.S.O. 1990, c.P.13* approval given by the City of Windsor does not constitute an approval under the *Endangered Species Act*, nor does it absolve me from seeking the necessary authorization, approvals or permits from the MNR prior to conducting any activity that may affect endangered or threatened plant or animal or its habitat.

# SITE PLAN APPROVAL RE-REVIEW APPLICATION

## APPENDIX A – ADDITIONAL INFORMATION

---

1. Site plan approval is a type of development control exercised in the City of Windsor where Council or their delegated Planning Official approves site plans and elevation drawings for a proposed development prior to the issuance of a building permit.

2. For purposes of site plan approval, development is defined in By-law #1 2004 as:

“**Development** means the construction, erection or placing of one or more buildings or structures on land or the making of an addition or alteration to a building or structure that has the effect of substantially increasing the size or usability thereof, or the laying out and establishment of a commercial parking lot.”

Questions on what constitutes a development requiring site plan approval should be directed to Planning Department at (519) 255-6543.

3. Council by By-law #1 2004 has exempted certain classes of development from the requirement for site plan approval including:

“Single detached, semi-detached, duplex and double-duplex dwellings; small commercial and combined commercial-residential buildings and additions; small industrial and institutional buildings and additions; alterations within an existing building; temporary buildings and structures; building features and mechanical elements; parking areas containing less than 5 spaces; and signs.”

4. For the purpose of processing, the Site Plan Approval Officer will classify each application for site plan approval as follows:

a) **Major Development** means any development as defined in By-law #1 2004 requiring site plan approval by the delegated Planning Official or Council which will significantly alter the current use of the property and/or affect off-site uses and/or impact on municipal services and facilities.

The application will be processed by Planning Department and forwarded to the Site Plan Review Committee for review and recommendation to the applicable approval authority for a decision.

a) **Minor Development** means any development as defined in By-law #1 2004 requiring site plan approval by the delegated Planning Official or Council which is of limited scale such that the developments will not significantly alter the current use of the property and/or affect off-site uses and/or impact on municipal services.

The application will be processed by Planning Department, reviewed by the Site Plan Approval Officer and forwarded to the applicable approval authority for a decision. (See also Appendix C).

After confirmation from the Site Plan Approval Officer or designate, that the proposal is a “Minor Development” as defined in By-law #1 – 2004.

5. Council has delegated its site plan approval authority to the delegated officials except in the locations listed below:

- a) Any development on City-owned lands.
- b) Any development within the Downtown Business Improvement Area.
- c) Any development on the north side of Riverside Drive.
- d) Any development on lands identified in a resolution of Council requiring site plan approval by Council.

Where Council is the site plan approval authority, Planning Department will prepare and forward a report to Council for a decision.

6. As a condition of site plan approval, the owner of the land is required to develop in accordance with the approved plan(s) and to provide required facilities, such as landscaping, lighting, fencing, curbing, road widening, at his/her expense. Bonds or letters of credit are normally required to guarantee the installation and maintenance of required facilities. The requirements are normally provided for in a site plan agreement registered on the title of the property. In some instances, the decision of the delegated official or resolution of Council will be sufficient without an agreement.

7. Under the City of Windsor Freedom of Information By-law, an application accepted by Planning Department is forwarded to the Clerk’s Office where it is listed with Council as received and retained on file for public information.

## APPENDIX B – GUIDE FOR PLAN/DOCUMENT PREPARATION (Section 5 of Application Form)

### 1. ALL PLANS AND DOCUMENTS

- a) A professional architect or engineer should prepare **all** types of site plan and related drawings.
- b) Prepare plans in full compliance with the Zoning By-law and applicable building code requirements. Site plan approval does not override any zoning, building code and other requirements.
- c) Site plans and elevations for assembly, institutional and high hazard (F-1) occupancies as defined by the Ontario Building Code and all other buildings exceeding 600 square metres in gross floor area or exceeding 3 storey in building height must be prepared for building permit purposes by either a professional engineer or architect (or both) as required by the Ontario Building Code.
- d) Submit plans that are legible, accurate and professionally drawn. Reductions should be a “black line print” and no larger than 28 cm x 43 cm (11” x 17”).
- e) In addition to paper application, prints and/or reductions, plans and drawings should be submitted in **pdf** format on compact disc (CD), not to exceed 4500 MG. ZIP files will not be accepted.

File names should be legible and clearly indicate the nature of the file and include either the SPC file number (SPC-XXX-YY) or the name of the applicant and site location.

### 2. INFORMATION REQUIREMENTS

It is the responsibility of the **agent** to ensure that the following information (as applicable) is provided on all submitted plans and documents:

#### a) Site Plans

- Scale, North Point and Unit of Measurement.
- Site Dimensions (including area) in metric or imperial units.
- Abutting streets and alleys (including right-of-way width) and sidewalks.
- Buildings to be retained and/or expanded (including dimensions).
- Buildings to be erected and/or additions to existing buildings (including dimensions).
- Distance between building(s) and nearest lot line(s)
- Parking areas and loading spaces (including number of spaces, size, aisle width, curbs, surface treatment), vehicular access (including dimensions), vehicular access on adjoining lands.
- Distance from parking areas to buildings and lot lines.
- Proposed areas to be landscaped. Do not show proposed trees on the site plan.
- Existing landscaping features (including trees, shrubs, and hedges) labelled as to species and size. Note any features to be retained, moved and/or removed.
- Walls, fences and landscape features designed for screening.
- Refuse storage areas including fencing and screening details and separation from buildings
- Existing freestanding structures that are to remain.
- Site Statistics: site area, built-up areas, landscaped areas, linear curbing, linear screening, parking/loading breakdown, stacking spaces, etc.
- All easements/land conveyances be accurately shown on site plan

#### b) Fire Access Route

- Applicable to the following buildings:
  - Any size for assembly, care or detention, and high hazard industrial occupancies;
  - Exceeding 600 sq. m. (6,460 sq. ft.) in gross floor area or 3 storeys in building height for other occupancies.
  - Distance from fire hydrant to principal entrance(s)
  - If sprinklered, note location of Siamese connection on site plan.
- Indicate on the site plan the fire route width, centreline radii, and distances from a fire route to buildings.
