

QUESTIONNAIRE

HYDRO CORRIDOR LANDS

Public Open House – October 22, 2003

Please take the time to provide us with your opinions about the use of these lands. Please complete the questionnaire and leave it in the drop box. We will begin reviewing them immediately, so that they can be taken into consideration for the final study.

The Government of Ontario has assumed ownership of Hydro One Networks transmission corridor lands. In addition to electrical transmission and distribution that the corridor lands provide, the government is also interested in providing opportunities for secondary uses that would benefit the public.

Municipalities across the Province have been primary users of corridor lands for transit, parks, trails, road crossings, parking lots and other secondary uses.

The purpose of this public open house is to receive public input on potential municipal secondary land uses for corridor lands.

A second public meeting will be held in the spring of 2004, to discuss preliminary land use ideas.

NAME:

ADDRESS:

1. Do you live in the City of Windsor?

Yes

No

2. What type of uses would you consider to be the “best” secondary use for Hydro One Corridor properties?

Transit

Road crossings

Parks (Open Space)

Parking Lots

Trails

Industrial

Other: _____

3. Please provide us with any additional issues, observations and/or ideas that you have regarding the potential use of the Hydro One Corridor Lands.
