Star Gazing

**WHAT YOU WILL NEED:**

- ◇ Clear night sky
- ◇ Blanket
- ◇ Binoculars or telescope if available
- ◇ Free download at [skyandtelescope.org](http://skyandtelescope.org) - introduces you to the constellations in a fun and entertaining way

**WHAT TO DO:**

- ◇ When you have a clear night sky go outside
- ◇ Sit or lay on a blanket and look up
- ◇ Some questions you could ask, “Where is the moon?” “What shape is the moon tonight?” “Do you see any shooting stars?”
- ◇ Have fun!
