

Coloured Ice Hunt

WHAT YOU WILL NEED:

- Ice cube trays
- Food colouring
- Water

WHAT TO DO NEXT:

1. Fill ice cube trays with water and add several drops of food colouring in each.
2. Allow them to freeze for several hours or overnight.
3. When completely frozen, hide them outside, in the snow.
4. While outside playing, go for a hunt and try to find the hidden ice cubes.
5. Count them, collect them, line them up, or build with them. Talk about where you found them, the colours you found, and what they look and feel like.
